

Attachment 1

The application is not entitled to receive streamlined treatment under the Commission's rules.

- (1) The applicant has no affiliation with a dominant U.S. carrier whose international switched or private line services the applicant seeks authority to resell (either directly or indirectly through the resale of another reseller's services).
- (2) The information and certifications required by Section 63.18(i) through (m) are set forth below:
 - (i) The applicant is affiliated (as defined in 47 C.F.R. Section 63.09(e)) with Airworld Technologies, Inc., a foreign carrier located in Nigeria.
 - (j) The applicant is under common control with ATI, a Nigerian corporation headquartered at

Plot 251, Herbert Macaulay Way
Central Business District
Opposite Nigerian National Petroleum Corporation (NNPC) Tower
Abuja, Nigeria.
Telephone # +234 805 165 4710

ATI will soon be engaged in the following lines of business:

- i. Call Termination
 - ii. Financial Clearing
 - iii. International Roaming
 - iv. Virtual Private Network Services (VPN)
 - v. Voice Over Internet Protocol (VOIP)
 - vi. SMS Routing and Call forwarding
- (k) Nigeria is a member of the World Trade Organization. ATI is currently a Development Stage Enterprise in Nigeria with an International Data Access License issued by the Nigerian Communications Commission (NCC). ATI has not yet commenced its carrier business in Nigeria, so it has no market share in that country, and obviously no market power.
 - (l) Applicant should be classified as non-dominant under 47 U.S.C. Section 63.10(a)(3) because its affiliate ATI has no share of the U.S.-Nigerian international transport market and no share of the Nigerian local access market.
