

Attachment 2

In response to Question 14 in the submitted Form FCC 214, all of the equity of the applicant, Sprint Communications Co., LP, is held, indirectly, by its ultimate parent, Sprint Nextel Corporation, a Kansas corporation, with its headquarters at 6550 Sprint Parkway, Overland Park, Kansas 66251. Sprint Nextel Corporation has no holder of ten percent or more of its equity and no interlocking directorates with any other company.

In response to Question 15, and relating to 47 C.F.R. Section 63.18 (d), Sprint Communications Co., LP has applied for and been granted many Section 214 authorizations for service to various countries, including an authorization for global facilities-based and resold services. See Overseas Common Carrier Section 214 Actions Taken, 11 FCCR 10502 (1996).

In response to Question 15, and relating to 47 C.F.R. Section 63.18 (e) (3), Sprint intends initially to use its own facilities and resold services to provide private line service to Cuba. No construction of new facilities is contemplated. In the future, if agreements can be made with the Cuban telephone company, ETECSA, that comply with the Commission's International Settlements Policy and its benchmarks rates policy, or that could be the subject of a reasonable request for waiver of one or both of these policies, Sprint will consider initiating switched service to Cuba as authorized by the grant of this application. For the present, however, Sprint will continue to terminate switched traffic to Cuba by means of third-party carriers.

No agreement with ETECSA or any other Cuban entity will involve any investment by Sprint or any of its affiliated companies in Cuba's domestic infrastructure. Sprint intends only to acquire such services as are needed from Cuban entities so as to terminate circuits in Cuba. Sprint will seek, as needed for the payment for such services, appropriate licenses from the Office of Foreign Assets Control of the Treasury Department, or the Bureau of Industry and Security of the Department of Commerce.

In response to Question 15, and relating to 47 C.F.R. Section 63.18 (g), the authorization of facilities that is the object of this application is categorically excluded as defined by 47 C.F.R. Section 1.1306 and no environmental assessment as defined by Section 1.1311 need be filed with this application.
