

Public Interest Network Services, Inc.

Response to Question 9, regarding streamlined processing:

Applicant Public Interest Network Services, Inc. (“PINS”) requests streamlined processing of this application, meeting the requirements of Section 63.12(c) of the Commission’s Rules. Specifically, Applicant is not affiliated with any foreign carrier (*see* 47 CFR § 63.12(c)(1)). PINS has no affiliation with any dominant United States carrier (*see* 47 CFR § 63.12(c)(2), and PINS does not seek authorization to provide switched services over private lines to a country not previously authorized by the Commission for such services.

Response to Question 15, regarding prior authorization, *et al.*

Applicant has not previously been granted international Section 214 authority, but is filing simultaneously herewith an application for Special Temporary Authorization to continue providing international resold services. Sections 63.18(e)(3) does not apply to this application because PINS seeks global resale authorization. Similarly, 63.18(g) is not applicable to PINS or this application because PINS is not seeking authorization under Section 63.18(e)(3).
