

Attachment 1

The application is entitled to receive streamlined treatment under the Commission's rules because:

(1) The Applicant is not a foreign carrier. The Applicant is affiliated with Mindhub Technologies Limited Nigeria ("Mindhub Nigeria"), which is a licensed carrier in Nigeria, through joint ownership by Henry Ojogho. Mr. Ojogho owns 40% of the Applicant and is also the sole owner of Mindhub Nigeria, which also owns 40% of the Applicant. Mindhub Nigeria only began operations as a carrier in Nigeria in 2010. It has less than one percent of the market for international telecommunications services in Nigeria. Nigeria is a WTO Member country and the Applicant and its affiliate qualify for a presumption of non-dominance under § 63.10(a)(3) and (4) because of the lack of market power demonstrated by Mindhub Nigeria's miniscule market share.

(2) The applicant has no affiliation with a dominant U.S. carrier whose international switched or private line services the applicant seeks authority to resell (either directly or indirectly through the resale of another reseller's services).
