Response per Section 63.18(d)

Neither the Applicant nor its principal has previously received authority under Section 214 of the Communications Act of 1934, as amended. Neither the Applicant nor its principal own or control common carrier, broadcast or aeronautical radio facilities. Applicant seeks this authorization to allow for prospective telecommunications uses that may require Section 214 authority.

Response per Section 63.18(e)(3)

No authority is sought over and above that which is included pursuant to Sections 63.18(e)(1) and (e)(2) of the Commission’s rules.

Response per Section 63.18(g)

Since no authorization is being sought pursuant to Section 63.18(e)(3) of the rules, the facilities requested herein are categorically excluded from environmental processing under Section 1.1306 of the Commission’s rules. Accordingly, no environmental assessment as described in Section 1.1311 is being filed with this application.
