Ms Downs,

Thank you for your assistance.

Hope you have a great day.

Best regards

Subject: Application for 214 Authorization

Ms Downs

Good day to you.

This is in reference to application # [ITC-214-20120808-00202](#) and our FRN is 0021915996
Previously, we had filed the above reference international section 214 application. After communication with the staff at the FCC we determined that a license was not required for the activities that we were engaged in at the time so we filed to withdraw the application.

Presently however, we wish to expand our activities and we believe that we do indeed desire to have 214 authorization.

Therefore, I am seeking your guidance as to how we should proceed without having to submit a new application fee.

I have submitted a new application for international 214 authorization. The question that I have is since the original fee that we submitted with the first application was never refunded, can it be applied to this new application, and if so, by what process? Or would it be possible to re-submit the original application to which this fee still seems to be attached.

11/21/2012

I thank you for your assistance in this matter.
