Ms Downs,

I can verify the following for you:

1. Charles A Long, who controls CALCO, Inc, is a US citizen.
2. The 1818 Mezzanine Fund II, L.P. and Sioux City, L.P. are Delaware limited partnerships. The general partner, which manages the affairs of each fund, is Brown Brothers Harriman & Co. (BBH).
3. BBH is a New York limited partnership. No person or entity holds 10% or more of the ownership of BBH. The affairs of BBH are managed by a number (more than 25) of general partners, none of whom owns or controls more than 10% of the ownership of BBH.

I trust this is sufficient and apologize for any confusion.

No. I understand from my colleagues that they requested some additional information regarding the 214 application and that they have not received it yet.

David,

Just following up. Did the LLW 214 application get on PN today?

Thanks.

Yes.

Here is the text:

Hi Mike,

As we discussed, Long Lines needs to file a request for Special Temporary Authority (STA). The filing must be made electronically through IBFS.

The request should explain why it is in the public interest to grant special temporary authority e.g., to avoid a discontinuance of service to customers while the Commission considers underlying application).

The STA request should explain the circumstances leading to the need for an STA.

The request should also address what steps are being taken by the parties to ensure future compliance with Commission rules and regulations.

The STA request also should state specifically that:

"The parties acknowledge that the grant of this STA will not prejudice any action the Commission may take on the underlying application. The parties further acknowledge that this STA can be modified or revoked by the Commission upon its own motion without a hearing."

The STA request should also state how long the STA is requested for.

David
