**Re: Potential Dismissal of Skillnet Telecom Service Corp's International Section 214 Application, File No. ITC-214-20150727-00186**

Dear Mr. Gomes:

Our records indicate that the international Section 214 application filed by Skillnet Telecom Service Corp (Skillnet) remains pending until the Executive Branch agencies complete their review. On January 5, 2017, the Executive Branch agencies informed us that they have not received a response to a proposed Letter of Assurances (LOA) that they sent to you and, as a result, have requested that the FCC dismiss the application. According to the Executive Branch agencies, you did not respond to the Executive Branch agencies proposed LOA by the December 9, 2016 due date or to a follow-up date of December 23, 2016. Consequently, the Executive Branch agencies cannot finalize their review of the application.

This is the second time that Skillnet has not been responsive to a request from the Executive Branch agencies. On December 23, 2015, we sent a letter to Mr. Oziel Souza asking if Skillnet wished to continue pursuing the above-mentioned application after failing to respond to the Executive Branch agencies' request for additional supplemental information.<sup>1</sup> On January 7, 2016, you replied stating that the failure to respond was due to a change in management and wanted to continue to pursue the grant of the application.<sup>2</sup>

Please inform us no later than **Monday, February 6, 2017**, if you would like to continue to seek the grant of the international Section 214 application and when you will respond to the Executive Branch agencies. Because this is the second failure to respond to the Executive Branch's requests, please provide in the letter, assurances that you will maintain timely contact with the FCC and Executive Branch agencies from this point forward and will maintain compliance with all terms noted in the final LOA.
