**Re: Application ITC-214-20151111-00266**

Dear Mr. Krech:

Now that Cuba has been removed from the FCC's Exclusion List, CIN requests streamlined treatment of its above referenced application for a 214 international license.

Neither CIN nor its principal, Mr. Barry Pasternak has any affiliation with, ownership of or agreement of any kind with a foreign carrier or a dominant domestic carrier.

This is also to inform the FCC that CIN's application does require an environmental assessment because CIN does not intend to construct an antenna.

This is to certify that the above information is true and correct. Please let me know if you require any further information.

Very truly yours,

  
Elizabeth B. Sandza
