### **Application of Rebtel Networks AB for Authority to Provide International Facilities-Based and Resold Telecommunications Services to All International Points**

#### **Answer to Question 9:**

This application qualifies for streamlined processing pursuant to Section 63.12 of the Commission's rules, 47 C.F.R. § 63.12. As further described below in response to Question 11, Rebtel Networks AB ("Rebtel") is a foreign carrier in Sweden and is affiliated with certain foreign carriers in Australia, Austria, Canada, Luxembourg, the Netherlands, and Poland. Each of these countries is a member of the World Trade Organization ("WTO"). Moreover, Rebtel is presumptively non-dominant on the international routes between the U.S. and these countries because it and its foreign carrier affiliates: (1) do not own any telecommunications facilities, (2) are not monopoly providers of communications services, and (3) lack 50 percent market share in the international transport and local access markets, in their respective foreign destination markets.

#### **Answer to Question 11:**

Rebtel provides the following information and certifications as required in Sections 63.18(i) through (m) of the Commission's rules, 47 C.F.R. §§ 63.18(i)-(m):

- (i) Rebtel certifies that it is a foreign carrier in Sweden and that it is affiliated with foreign carriers in Australia, Austria, Canada, Luxembourg, the Netherlands, and Poland.
- (j) Rebtel certifies that it seeks authorization to provide international telecommunications services to all international points, including the destination countries in which it is a foreign carrier or is affiliated with foreign carriers. Specifically, Rebtel is a foreign carrier in Sweden and it is affiliated with the following foreign carriers:
  - Rebtel Poland Sp.z.o.o. (authorized in Poland)
  - Rebtel Services Sa.r.l. (authorized in Australia, Austria, Canada, Luxembourg, and the Netherlands)
- (k) Australia, Austria, Canada, Luxembourg, the Netherlands, Poland, and Sweden are WTO member countries. Rebtel and each of its foreign carrier affiliates lacks market power in the foreign countries in which it operates.
- (l) Not applicable.
- (m) With respect to the international routes between the United States and the foreign countries listed above, Rebtel is presumptively non-dominant under Section 63.10 of the Commission's rules, 47 C.F.R. § 63.10, because it and its foreign carrier affiliates: (1) do not own any telecommunications facilities, (2) are not monopoly providers of

communications services, and (3) lack 50 percent market share in the international transport and local access markets in their respective foreign destination markets.

**Answer to Question 12:**

As set forth above, Rebtel seeks authorization to provide telecommunications services on the routes between the U.S. and the foreign countries set forth in response to Question 11 above.
