

Natel Networks, LLC qualifies for streamlined application process because it is applying for global facilities-based or resale authority and is eligible under Section 63.12(c) of the Commission's rules. 47 C.F.R. § 63.12 (c). Pursuant to the applicable section and rules Natel Networks, LLC DOES NOT meet any of the below descriptions that would make it ineligible for streamlined processing:

1. The applicant is affiliated with a foreign carrier in a destination market it seeks authority to serve, unless the applicant clearly demonstrates in its application at least one of the following:

(i) The Commission has previously determined that the affiliated foreign carrier lacks market power in that destination market. The Commission maintains a list of foreign carriers presumed to possess market power on its website at <http://www.fcc.gov/ib>;

(ii) The applicant qualifies for a presumption of non-dominance under 47 C.F.R. § 63.10(a)(3);

(iii) The affiliated foreign carrier owns no facilities, or owns only mobile facilities, in that destination market. For this purpose, a carrier is said to own facilities if it holds an ownership, indefeasible-right-of-user, or leasehold interest in bare transmission capacity in international or domestic telecommunications facilities (excluding ownership of switches);

(iv) The affiliated destination market is a WTO Member country and the applicant qualifies for a presumption of non-dominance under § 63.10 (a)(4);

(v) The affiliated destination market is a WTO Member country and the applicant agrees to be classified as a dominant carrier to the affiliated destination country under § 63.10, without prejudice to its right to petition for reclassification at a later date; or

(vi) An entity with exactly the same ultimate ownership as the applicant has been authorized to provide the applied-for services on the affiliated destination route, and the applicant agrees to be subject to all of the conditions to which the authorized carrier is subject for its provision of service on that route; or

2. The applicant has an affiliation with a dominant U.S. carrier whose international switched or private line services the applicant seeks authority to resell (either directly or indirectly through the resale of another reseller's services), unless the applicant agrees to be classified as a dominant carrier to the affiliated destination country under Section 63.10 (without prejudice to its right to petition for reclassification at a later date); or

3. The applicant seeks authority to provide switched basic services over private lines to a country for which the Commission has not previously authorized the provision of switched services over private lines; or

4. The Commission has informed the applicant in writing, within fourteen days after the date of public notice listing the application as accepted for filing, that the application is not eligible for streamlined processing.
