Re: Amendment to 214 Application  
(ITC-214-20260501-00128)

Dear Mrs. Monserrate:

This revision and/or Amendment to our 2134 Application is in response to your email requesting such supplementary information. Please find the following:

The first request to file a Supplementary Pleading had been successfully submitted. Applicant Name: hb@bartell.com; File Number: PC0116104; Submission Date & Time: 2026-08-04-17:56:55

The diagram of equity interests has been revised to show the 100% direct Ownership named in response to paragraph (h)(1) of this section. See attached as **EXHIBIT 1**

Please note this revised description is in addition to the detailed response to Question No. 5 titled "Brief Application Description" that was submitted in the original Application.

## A BRIEF DESCRIPTION OF THE SERVICES PROVIDED BY 3 BILLIONAIRES

3 Billionaires is a large reseller of telecommunication products and services. These services are sold directly to consumers and/or subscribers through its directly owned retail locations. These locations or 'store fronts' are exactly the same as thousands of other 'Mobile telecom stores' throughout the USA, aka MVNO's, where consumers go to purchase cell phones and mobile services such as SIM Cards and calling plans. These calling plans allow the consumer to transmit and receive voice calls as well as sending and receiving text messages. Specifically, 3 Billionaires has been negotiating directly with one of the 3 large USA Incumbent Mobile carriers who purchased the FCC spectrum for cell phones.

This ILEC requested 3 Billionaires to obtain its own 214 license directly from the FCC to resell their products and services.

Providing 3 Billionaires with a 214 license will serve the public's interest in several ways. The first is adding to the retail outlets where these telecom products and services are available, but more importantly by catering to specific ethnic markets, where English is not the predominant spoken language.

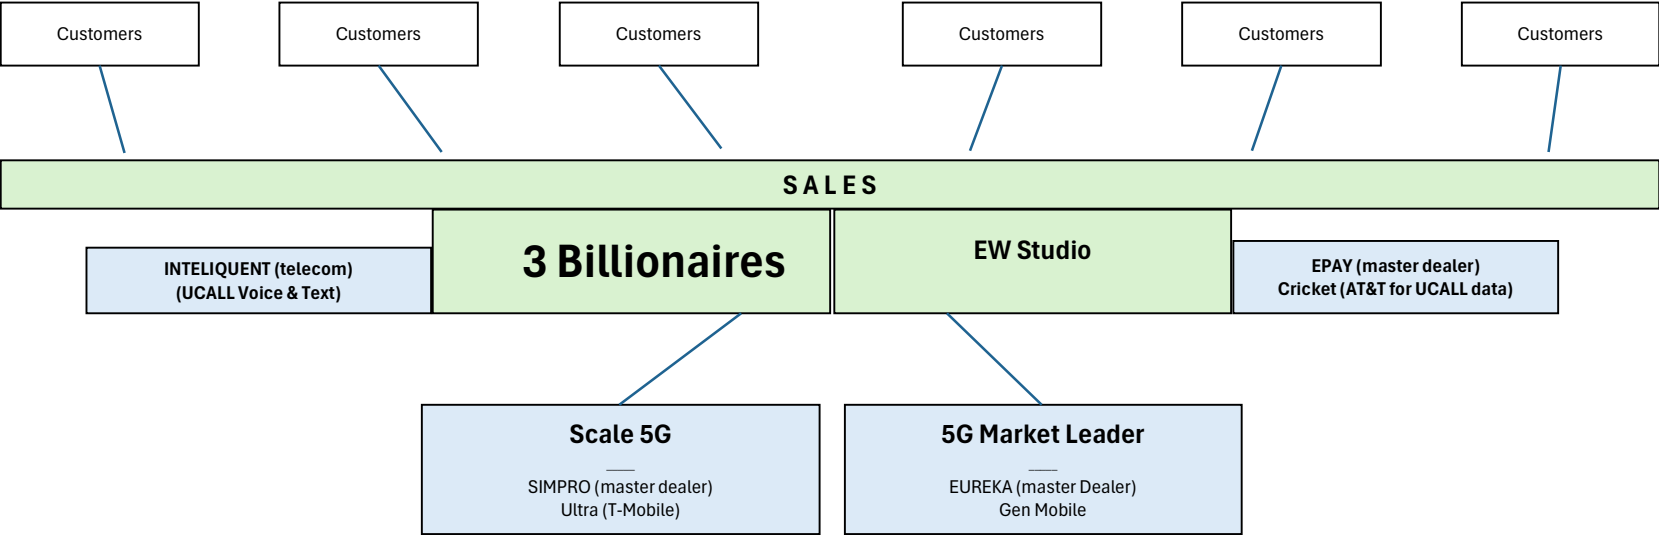

Regards,

Harold Barr  
Telecom Consultant to  
3 Billionaires Corp
