Dear Valued Customer,

Over the past month, you received communications that TDS has made a difficult decision to discontinue local and long distance voice services and fixed-wireless broadband Internet access in the Appleton area. This discontinuance is subject to the approval of the Federal Communications Commission (FCC) and, if such approval is received, will take place on or after **May 15, 2015**.

If you have not already done so, you will need to make arrangements for your service to be carried by another telecommunications service provider. If you have not made arrangements with another provider prior to May 15, 2015, please be advised that your service will be disconnected on or after this date, provided that the FCC approves the planned discontinuance.

The FCC will normally authorize this proposed discontinuance of service (or reduction or impairment) unless it is shown that customers would be unable to receive service or a reasonable substitute from another carrier or that the public convenience and necessity is otherwise adversely affected. If you wish to object, you should file your comments as soon as possible, but no later than 15 days after the Commission releases public notice of the proposed discontinuance. You may file your comments electronically through the FCC's Electronic Comment Filing System using the docket number established in the Commission's public notice for this proceeding, or you may address them to the Federal Communications Commission, Wireline Competition Bureau, Competition Policy Division, Washington, DC 20554, and include in your comments a reference to the §63.71 Application of TDS Metrocom, LLC.. Comments should include specific information about the impact of this proposed discontinuance (or reduction or impairment) upon you or your company, including any inability to acquire reasonable substitute service.

If you have any questions, please contact TDS at 1-877-283-2697.

And again, thank you for being a TDS customer. We appreciated your business.

Sincerely,
