Answer to Question 11 - Direct and Indirect Ownership Information

Both the Assignor and Assignee are wholly-owned subsidiaries of Verizon Wireless, which in turn is owned and controlled by Verizon Communications, Inc. (“Verizon”) and Vodafone Group Plc (“Vodafone”). Verizon, a Delaware corporation, owns 55% of Verizon Wireless; Vodafone, a company organized under the laws of the United Kingdom, owns 45%. Control of Verizon Wireless is vested in a Board of Representatives, which in turn is controlled by Verizon. Verizon is the majority owner and possesses sole affirmative control of Verizon Wireless.¹ No individual shareholder owns a 10% or greater ownership interest in Verizon or Vodafone.

¹ Vodafone’s interest in Verizon Wireless, and its qualifications (as a foreign corporation) to hold indirect ownership interests in common carrier licenses have been previously authorized by the FCC under Section 310(b)(4) of the Communications Act. *See In re Applications of Vodafone AirTouch Plc and Bell Atlantic Corporation, For Consent to the Transfer of Control or Assignment of Licenses and Authorizations, Memorandum Opinion and Order*, 15 FCC Rcd 16507, 16514 (Intl. and Wir. Answer to Question 13

Description of Transaction

In a series of intra-corporate transactions occurring on August 23, 2010, Verizon Wireless caused the Assignor to assign, in part, the international Section 214 authority referenced herein to the Assignee on a *pro forma* basis. The purpose of this assignment was to effectuate an internal reorganization of company assets for planning, strategy and general business purposes. Specifically, the Assignor assigned its Section 214 authority to the Assignee covering wireless telecommunications assets in Allen, Beauregard, Cameron and Jefferson Davis parishes within the Louisiana 5 (Beauregard) cellular market. Assets were also assigned to Verizon Wireless Personal Communications LP in the Louisiana 6, Louisiana 7, Mississippi 8 and Mississippi 9 cellular markets, and residual portions of the Louisiana 5 cellular, which is being reported by means of a separate notification.² Assignee requests a new Section 214 authorization number in its own right; Assignor will retain the exiting authorization number for the time being, but may surrender it at future date.

² FCC Form 603 *pro forma* notifications are being filed contemporaneously herewith through the Commission's Universal Licensing System ("ULS") to report the various wireless license assignments involved in this transaction.
