Answer to Question 13

Description of Transaction

Blue Casa is financially-troubled and facing imminent business failure. Due to these circumstances, a two-step transaction is proposed by which Blue Casa's assets, including its customer base, and its International section 214 authorization will be assigned to Assignee FBO Creditors and then sold to BCT. The first step of this transaction will consist of an assignment of Blue Casa's assets to Assignee FBO Creditors, which is a special purpose entity organized for the purpose of facilitating an assignment for the benefit of creditors pursuant to California law. The assignment for the benefit of creditors process is designed to both (i) facilitate the expeditious sale of Blue Casa's assets in order to preserve the going concern and (ii) maximize value and eventual recovery for Blue Casa's creditors. Assignee FBO Creditors will not operate the assets or provide any services but, instead, will immediately sell the assigned assets to BCT in exchange for a cash payment, which will be held in trust for the benefit of Blue Casa's creditors.

Under the proposed transaction, these two steps will take effect simultaneously, and BCT thereby will be positioned to provide continuing service to the transferred customers under the same rates, terms, and conditions that they enjoyed previously as customers of Blue Casa, without disruption or any other adverse impact on service quality. Thus, the transaction will be virtually transparent to affected customers. In accordance with applicable Commission and state requirements, all affected customers will be provided a minimum of thirty days' advance written notice of the proposed transaction. Further, closing of the transaction will be subject to receipt of all required Commission and state authorizations..

Answer to Question 20

Rule 63.18(p) Streamlined Processing

This application is eligible for streamlined processing under Sections 63.03 and 63.12 of the Commission's Rules, 47 CFR § 63.03 and § 63.12. With respect to the domestic authority, the application is eligible for streamlining because, immediately following the transaction: (1) the Joint Applicants and their affiliates (as defined in Section 3(1) of the Communications Act, "Affiliates") combined, will hold less than a ten percent (10%) share of the interstate interexchange market; (2) to the extent that the Joint Applicants or their Affiliates provide U.S. local exchange services or exchange access services, those services will be provided only in geographic areas served by a dominant local exchange carrier that is not a party to the transaction; and (3) none of the Joint Applicants or their Affiliates is dominant with respect to any U.S. domestic telecommunications service. With respect to the international authority, the application is eligible for streamlined processing because none of the exceptions to streamlined filing specified by paragraph (c) of Section 63.12 applies.
