APPLICATION

Glentel Corp. ("Glentel" or "Assignor") and Infosat Able Holdings, Inc. ("Infosat" or "Assignee"), pursuant to Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and Section 63.24 of the Commission's rules, 47 C.F.R. § 63.24, respectfully request consent from the Commission for Glentel to assign to Infosat substantially all of the assets, including the customer base, associated with the U.S. business of Glentel that is described in this application. Infosat is a non-dominant carrier that already holds Section 214 authority from the Commission to operate as a facilities-based and resale carrier.

In support of this request, Glentel and Infosat are providing the information set forth in Attachment 1.

Attachment 1

DESCRIPTION OF THE APPLICANTS (Response to Question 10)

A. *Glentel Corp. – Assignor*

Glentel is incorporated under the laws of the State of Washington. Glentel resells mobile satellite services in the United States that are provided via the MSAT-1 and MSAT-2 Mobile Satellite Service space stations operated by LightSquared.¹

Glentel's contact information is as follows:

Glentel Corp.
1201 3rd Avenue, Suite 3400
Attn.: Erika Tse
Seattle, WA 98101
604-294-2323

Joseph A. Godles, Esq.
Goldberg, Godles, Wiener & Wright LLP
1229 19th Street, NW
Washington, DC 20036
202-429-4900

¹ Glentel recently filed a request pursuant to Section 214 of the Communications Act and Section 63.18 of the Commission's Rules for global resale authority (*see* FCC File No. ITC-214-20130110-00008). As explained in that application, although Glentel has been making Section 214-related FCC filings for many years and was of the belief that it holds a Section 214 authorization, it has been unable to locate a Section 214 file number for the company. Based on discussions with the International Bureau's staff about these circumstances, Glentel filed its recent application so it can secure a Section 214 file number.

B. *Infosat Able Holdings, Inc. – Assignee*

Infosat is incorporated under the laws of the state of Delaware. Infosat holds authority pursuant to Section 214 of the Communications Act and Section 63.18 of the Commission’s Rules to operate as a facilities-based and resale carrier (*see* ITC-214-19990128-00050, ITC-214-20000113-00025).

FOREIGN CARRIER CONSIDERATIONS (Response to Question 12)

Daniel S. Goldberg and Christopher S. DiFrancesco, who are the only officers and/or directors of Infosat, also are officers and/or directors of the non-U.S. carriers shown below. The countries in which these companies operate as non-US carriers is shown in the response to Question 14.

Telesat Canada
Infosat Communications LP
Telesat Brasil Capacidade de Satélites Ltda.
Telesat (IOM) Limited

DESCRIPTION OF THE TRANSACTION (Response to Question 13)

Glentel and Infosat have executed an Asset Purchase Agreement pursuant to which Glentel seeks to sell and assign to Infosat the assets, including the customer base, associated with Glentel's business in the United States of reselling mobile satellite services that are provided via the MSAT-1 and MSAT-2 Mobile Satellite Service space stations operated by LightSquared. Glentel does NOT seek authority to continue to operate under its international Section 214 authorization following consummation of this transaction. Grant of this application is in the public interest because it will facilitate a transaction that ensures uninterrupted service for Glentel's U.S. customers.

FOREIGN CARRIER AFFILIATION POST-CONSUMMATION

(Response to Question 14)

Infosat is affiliated with the foreign carriers shown below, and these companies operate as carriers in the countries shown below. Telesat Canada indirectly owns 100% of the other foreign carriers shown below and indirectly owns 100% of Infosat.

FOREIGN CARRIER	COUNTRY
Telesat Canada	Canada
Infosat Communications LP	Canada
Telesat Brasil Capacidade de Satélites Ltda.	Brazil
Telesat (IOM) Limited	Isle of Man

(Response to Question 15)

See response to Question 14, above.

NON-DOMINANT CARRIER STATUS OF ASSIGNEE (Response to Question 16)

Infosat’s foreign carrier affiliates lack sufficient market power on the foreign end of the routes between the United States and the countries identified in the response to Question 14, above (the “Infosat Affiliate Countries”) to affect competition adversely in the U.S. market. The foreign carrier affiliates’ respective shares of the international transport and local access markets in the Infosat Affiliate Countries is well under 50%.

Accordingly, pursuant to Section 63.10(a)(3) of the rules Infosat is presumptively classified as non-dominant.

REQUEST FOR STREAMLINED PROCESSING (Response to Question 20)

This application is eligible for streamlined processing under Section 63.12(c)(1)(ii) of the rules because the proposed assignee, Infosat, qualifies for a presumption of non-dominance in the relevant markets (*see* response above to Question 16).
