JOINT INTERNATIONAL APPLICATION FOR CONSENT TO TRANSFER AND
ASSIGNMENT OF CUSTOMERS, EXCLUDING THE UNDERLYING SECTION
214 INTERNATIONAL AUTHORITIES OF THE RESPECTIVE PARTIES

Multiphone Latin America, Inc. ("Multiphone" or "Transferee"), and LD Telecommunications, Inc. ("LD Telecommunications" or "Transferor") herein collectively called the "Applicants" pursuant to Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214 *et. al.* (1982), and Section(s) 63.03; 63.04 and 63.24 of the Federal Communication Commission's (hereafter called "Commission") Rules¹, herein seek the Commission's Consent to Assign and Transfer Assets (excluding underlying Section 214 Authority) of an International Common Carrier, specifically a limited base of 8,000 prepaid PIN-less account customers/subscribers who use international long distance services from LD Telecommunications to Multiphone. The customers are associated with a prepaid calling account that recognizes the subscriber's ANI and gives access to international calling on a prepaid basis. Subject to approval by the Commission, the transfer and assignment of these customers/subscribers will take place when Multiphone assumes all underlying carrier operations and support for the customers and said customers are to be migrated from LD Telecommunications to Multiphone. LD Telecommunications presently holds international authority from the Commission to provide services pursuant to 47 U.S.C. § 214 and has since October 06, 1999. Multiphone presently holds authority from the Commission to provide

¹ See. 47 C.F.R. § 63.03; 47 C.F.R. § 63.04; 47 C.F.R. § 63.24, respectively.

international services pursuant to 47 U.S.C. § 214 and has since June 23, 2000. All customers/subscribers at the heart of this transaction have been provided notice and have not objected, and, are presently consumers of international calling services of LD Telecommunications. Multiphone has no foreign affiliations with foreign or dominant carriers. By granting this application, the Commission will serve the public interest, convenience and necessity by promoting competition in the international services market. Competition will benefit U.S. consumers by increasing service options and lowering prices. Furthermore, the transfer of control will not result in any change of service to the contemplated customers of LD Telecommunications, insofar as Multiphone will hereafter be the carrier instead of LD Telecommunications. Multiphone will not change the types of services provided to these customers, and, they will continue to receive their international services at the same quality and terms as they currently receive with LD Telecommunications. Thus, the public interest will be served by the grant of transfer and assignment of these customers from Transferor to Transferee.

I. INTRODUCTION:

A. Summary of the Contemplated Transaction

The Transferor, LD Telecommunications, desires to focus its telecommunication services in other areas of voice, data and communication services and discontinue servicing retail prepaid PIN-less services and consumers. Currently LD Telecommunications has approximately eight thousand (8,000) subscriber customers that are comprised of consumers and enterprise businesses that utilize ANI recognition to gain access to PIN-free prepaid long distance international services (international prepaid long distance accounts). On April 1, 2014, LD Telecommunications and Multiphone have entered into an agreement (that is subject to the consent of the Commission) wherein Multiphone will undertake all carrier services of these subscribers and assume these subscribers as customers with a target date of June 20, 2014, all migration of accounts going well and subject to Commission approval. Since the services are prepaid, no carry-over balances will be involved and clients will be migrated as their existing service balances are consumed and require re-charging of the prepaid accounts. Multiphone has secured adequate facilities to maintain and operate services to these accounts, and will, utilize LD Telecommunications as one of its primary carriers to ensure the continuity of service quality and pricing.

B. Request for Streamlined Processing

The Applicants respectfully submit that this Application is eligible for streamlined processing pursuant to Section 63.03 and Section 63.12 of the Commission's Rules, found at 47 C.F.R. § 63.03 and 47 C.F.R. § 63.12, respectively.
