**Answer to Question 13:**

This filing hereby notifies the Commission pursuant to Section 63.24(f) of its rules, 47 C.F.R. § 63.24(f), of the *pro forma* assignment of the international Section 214 authorization held by Midwest IA, an indirect wholly-owned subsidiary of Verizon. On December 31, 2014, Midwest IA was merged into Alltel and eliminated. Alltel now holds all of the licenses formerly held by Midwest IA.

This restructuring does not change the ultimate ownership or control of the international Section 214 authorizations, as Verizon has continued to control them both before and after the restructuring. Accordingly, this assignment is *pro forma* in nature. The Commission has previously stated that “[r]egulatory review of [*pro forma*] transactions yields no significant public interest benefits, but may delay or hinder transactions that could provide substantial financial, operational, or administrative benefits for carriers.”<sup>2</sup>
