Re: **Supplement**
Midcontinent Communications
Knology of Kansas, Inc.
Joint International and Domestic Section 214 Application for Transfer of Control
FCC File No. ITC-ASG-20161110-00296
WC Docket No. 16-390

As requested by the Commission's staff, we hereby supplement the above-referenced joint international and domestic Section 214 application to assign and transfer control of certain assets of Knology of Kansas, Inc. to Midcontinent Communications by providing the following statements for the record:

- Midcontinent Communications Investor, LLC is a limited liability corporation organized under the laws of the State of South Dakota.
- Comcast Midcontinent, LLC is a limited liability corporation organized under the laws of the State of Delaware.
- Other than as identified in the original application (File No. ITC-ASG-20161110-00296), no entity or individual directly or indirectly holds a 10 percent or greater equity or voting interest in Midcontinent Communications.
- Brian L. Roberts, Comcast's Chairman and Chief Executive Office, has or is attributed with the power to vote stock that represents 33.33 percent of the voting power of Comcast's voting stock. Mr. Roberts's interest is held primarily through his control BRCC Holdings LLC, a Delaware limited liability company of which he is the sole Manager. To Comcast's knowledge, no other individual or entity beneficially owns, directly or indirectly, a ten percent or greater voting interest in Comcast.

Respectfully submitted,

Scott S. Patrick
