**Answer to Question 13:**

This pro forma assignment took place in connection with the formation of Equivoice Holdings, Inc, an Illinois corporation. As a result of the transaction, Equivoice, Inc. became a wholly-owned subsidiary of Equivoice Holdings, Inc. and the Section 214 authorization was subsequently assigned on a pro forma basis to the newly-formed parent, in accordance with FCC rules. This assignment is pro forma because it involves the assignment of Section 214 authority from a wholly-owned direct subsidiary corporation to a newly-formed parent corporation owned by the assignor shareholders without substantial change in their interests.
