Answer to Question 12

Assignee has interlocking directorates with foreign carriers as listed on Exhibit A hereto.

Answer to Question 13

Assignor, a wholly owned subsidiary of Assignee, was merged into and subsumed by its direct parent, Assignee, effective April 1, 2017. Assignor's assets, including its international section 214 authorizations, were therefore assigned to Assignee in this *pro forma* transaction, and Assignee is successor in interest to Assignor. This *pro forma* merger was part of a corporate reorganization designed to simplify the overall organizational structure of various BT entities in the United States. Assignor did not desire to retain any of these authorizations.

Applicants respectfully request a waiver of 47 C.F.R. § 63.24(f) to provide for late notice of this *pro forma* ownership change. See 47 C.F.R. § 1.3; see also Numbering Resource Optimization, Order, 18 FCC Rcd 16860, ¶ 9 (2003) ("The Commission may exercise its discretion to waive a rule where the particular facts make strict compliance inconsistent with the public interest.").

This assignment is *pro forma* in nature as ultimate control and ownership of the authorizations at issue did not change.
