(a non-public holding company duly organized under Mexican laws that may be deemed to be controlled by the Slim Family) also own shares of América Móvil that represent 15.63 percent of the equity (approximately 20.77 percent of the voting stock) of América Móvil;. In addition, based upon public filings with the SEC, Carlos Slim Helú and members of his family individually own shares of América Móvil, though none in his or her individual capacity, excluding Carlos Slim Helú, own five percent or more of the voting shares of América Móvil. Collectively, members of the Slim Family, the Family Trust and Inversora Carso hold approximately 60.75 percent of the equity and 89.29 percent of the voting stock in América Móvil. As of March 31, 2021, 15.7 percent of the outstanding L shares of América Móvil were represented by L Share ADSs, each representing the right to receive 20 L shares, and 99.98 percent of the L Share ADSs were held by 6,532 registered holders with addresses in the United States. As of such date, 37.2 percent of the A shares were held in the form of A Share ADSs, each representing the right to receive 20 A shares, and 99.9 percent of the A Share ADSs were held by 3,215 registered holders with addresses in the United States.

completed on May 17, 2021. Attached are charts showing the ownership of the Section 214 authorization before and after the transaction.

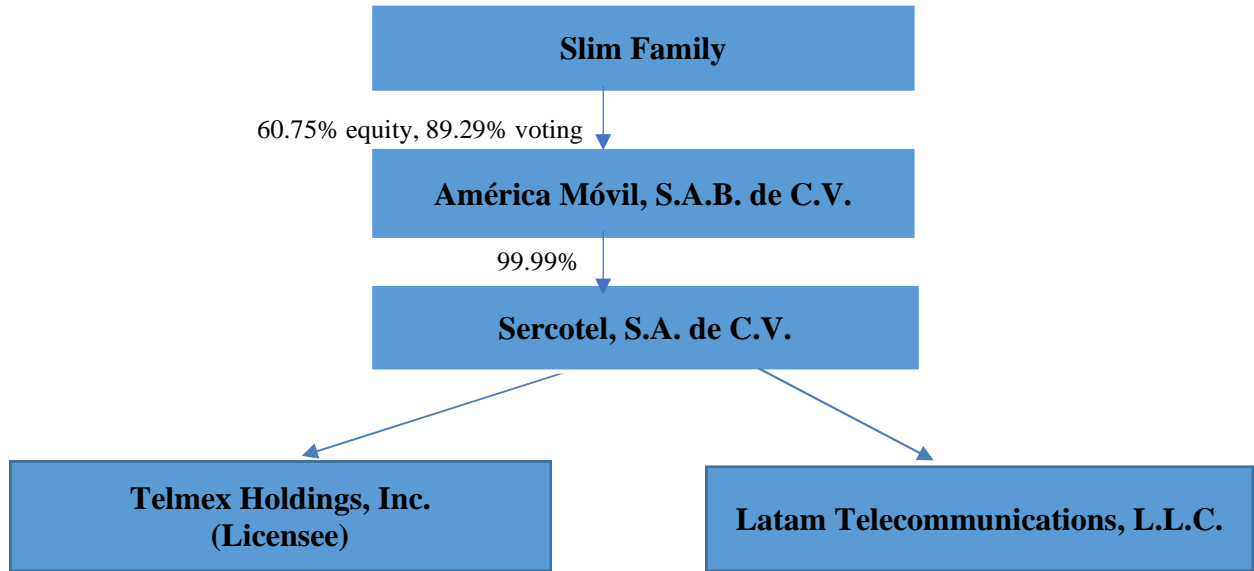

Because the transaction described above did not change the ultimate control of the authorization (it was controlled by América Móvil before and after the transaction), the transaction was *pro forma* in nature.<sup>2</sup> The Commission has stated that, in situations “where no substantial change of control will result from the transfer or assignment, grant of the application is deemed presumptively in the public interest.”<sup>3</sup>
