APPLICATION FOR MODIFICATION OF SECTION 214 AUTHORITY

The Taino Carib Consortium, pursuant to Section 63.18(e)(3) of the Commission’s Rules, hereby requests the Commission to modify the Section 214 authority previously granted to construct and operate the Taino Carib Cable System to include Antelecom N.V., Cable and Wireless (BVI) Limited, and Prepa Networks, LLC as licensees.¹ This application is submitted in connection with the previously filed cable landing license application to authorize the continued operation of the Taino Carib Cable System after the existing landing license for the cable expired on January 1, 2018.² Antelecom N.V., Cable and Wireless (BVI) Limited, and Prepa Networks, LLC are applicants for the renewed cable landing license for Taino Carib. Antelecom N.V., Cable and Wireless (BVI) Limited, and Prepa Networks, LLC seek Section 63.18(e)(3) authority to own and operate this common carrier facility.

¹ The Taino Carib Cable System commenced operation as a common carrier cable on January 1, 1992, pursuant to the cable landing license granted on July 13, 1992 and Section 214 authorization granted on June 25, 1992. *See Telefonica Larga Distancia de Puerto Rico, et al.*, 7 FCC. Rcd. 4275 (1992) (Cable Landing License) & *id.*, 7 FCC Rcd. 4266 (1992) (Section 214 authorization). The cable continues in operation pursuant to Special Temporary Authority. *Id.*

² *See The Taino Carib Cable System Operating between the Puerto Rico and St. Thomas in the U.S. Virgin Islands and the British Virgin Islands*, File No. SCL-LIC-2018-0702-00019, filed on June 29, 2018.

The continued operation of the Taino Carib Cable System will serve customers in the United States by providing bandwidth capacity for broadband traffic between the Puerto Rico, the U.S. Virgin Islands and the British Virgin Islands, with connections to international routes serving the Caribbean and Central and South America. As stated in the application for the renewed cable landing license, the continued operation of this cable is overwhelmingly in the public interest by continuing to help meet the demand for voice, data and Internet traffic, provide important facilities-based competition, and enhance service quality, increase resiliency, and decrease latency on the above routes. The same reasons support the grant of this application.

Information requested by 47 C.F.R. § 63.18. The information requested by 47 C.F.R. § 63.18 of the Commission's rules for each applicant can be found in the attached appendices as follows:

APPENDIX A: Antelecom N.V.

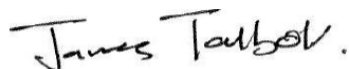

APPENDIX B: Cable and Wireless (BVI) Limited

APPENDIX C: Prepa Networks, LLC

U.S. Departments of State, Commerce, and Defense. A complete copy of this application has been sent to the U.S. Departments of State, Commerce, and Defense. Such service is certified in the certificate of service attached to this application.

For the reasons stated above, the Taino Carib Consortium respectfully requests that the Commission grant this application to modify the Section 214 authority previously granted to construct and operate the Taino Carib Cable System to include Antelecom N.V., Cable and Wireless (BVI) Limited, and Prepa Networks, LLC as licensees.

Respectfully submitted,
