Thank you Jodie.

(1) We will take Applicants' words that Team Telecom does not object to the extension of STA and be consistent with you. However, I would like to note that our ITC-STA-20080918-00434 will expire on Nov. 19, 2008, and I have not seen its request for extension yet.

(2) Since the transferee, Capital Growth, is not foreign owned, we do not need Team Telecom's consent to grant the STA, but we will be consistent with you.  
Have a great day.

Just wanted to check in on two STAs.

(1) We have an STA extension request for Vanco FLAG. The applicants say that Team Telecom does not object to the extension and copied DOJ/DHS on the request. We are thinking we may grant it for another 60 days, if the FO agrees. The applicants have requested 35 days (until December 19), but, even if Team Telecom approves it by then, we never know exactly what our grant timing will be. We should be consistent with you, though, so please let us know what you guys plan to do.

(2) We have a new application and STA request from Vanco Direct. They say the transferee, Capital Growth, is not foreign owned and want the STA by 11/19 because of Vanco's bankruptcy. They say the U.K. bankruptcy court has approved the sale. They also say Vanco Direct is red lighted for \$25 here and will be green by today. We can't do anything until it's green, but wanted to check with you on what you plan to do. Also, does it matter that Vanco Direct is foreign owned, but the transferee is not for purposes of granting an STA? Would Team Telecom have to approve it?
