**Subject:** Applications of Noble Holdings and HunTel

Dear Ms. O'Connell:

Please accept this response to your email message of earlier this morning wherein you asked the following question and others based upon it:

*[T]he ownership information in the international transfer application states that Burden Direct Investment Fund III holds an 11.76 equity interest (as an "LP") in American Broadband Communications, LLC. Is that correct?*

No, it is not correct. The Attachment to the International Application reflects a formatting error. It appears that during the editing process of the Attachment, "Burden Direct" was inserted inadvertently beneath the header for American Broadband Communications, LLC (Answer to Question 11, top of page 3). Burden Direct Equity Investment Fund III is rather a limited partner in Signal Equity Partners II, LP. The other partners of that entity are: Signal Equity Advisors II, LLC (2.94% GP); Garden House, LLC (58.9%, LP) and; Eurazeo (23.5%, LP).

I am attaching pages from the Domestic 214 Application (WC Docket No. 06-14) that explain the relationship of the parties and which may assist in illustrating the formatting error described above.

Since the other questions that you provided in your previous email are addressed by the information provided in this email, above, I have not reproduced those questions here.

Please do not hesitate to contact me if you have any questions or require additional information.

Sincerely,

Joshua Seidemann
