Attachment A

**Inter-Tel - Mitel Transaction**  
**WC Docket No. 07-158**  
**ITC-T/C-2007/0608-00221**

**The Parties**

<u>Transferor:</u>	Inter-Tel (Delaware), Inc.
<u>Licensee:</u>	Inter-Tel NetSolutions, Inc.
<u>Transferee:</u>	Mitel Networks Corporation

**Description of the Transaction and Parties**

- Inter-Tel is a publicly traded provider of communications equipment, as well as customized applications, and system design principally to enterprise customers. Its subsidiary, Inter-Tel NetSolutions, offers domestic and international calling services to Inter-Tel's enterprise customers. NetSolutions holds international and domestic Section 214 authority and operates as a non-facilities based reseller.
- Mitel is a well-established telecommunications equipment and systems provider headquartered in Canada. Mitel does not provide any telecommunications services.
- Agreement and Plan of Merger dated April 26, 2007:
  - (1) Inter-Tel will merge with Mitel's subsidiary, Arsenal Acquisition Corporation, Inter-Tel surviving.
  - (2) Inter-Tel's stock will be cancelled and converted into the right to receive a certain amount of cash.
  - (3) Arsenal's stock will be converted into one share of stock of the surviving Inter-Tel.
  - (4) At the conclusion, Inter-Tel will be the wholly owned subsidiary of Mitel.
- The total purchase price is approximately \$723 million.
- The Applicants have already obtained necessary approvals in 15 states--the FCC's approval is the only outstanding regulatory consent required.

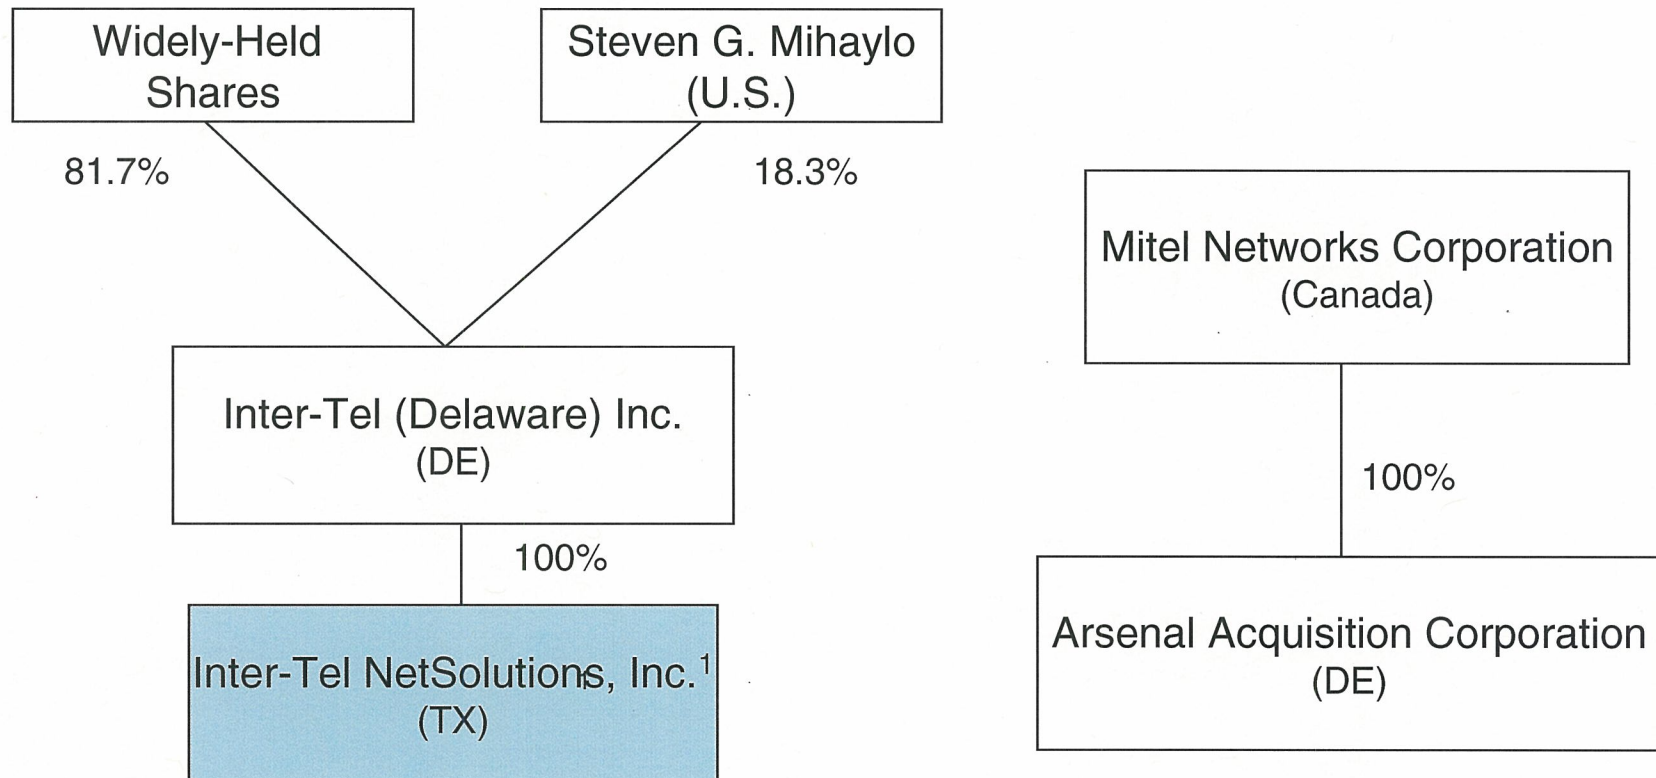

**Special Temporary Authority Request**

- On July 30, 2007, the Applicants filed requests for Special Temporary Authority (60 days, starting August 6, 2007) with the Wireline and International Bureaus.
- STA requests were made due to FCC delays in processing the domestic and international 214 applications, which in turn were caused by USAC/FCC billing errors (that Inter-Tel repeatedly sought to correct) that mistakenly put Inter-Tel into an extended "red light" status.
- With STA approval by August 6, 2007, the Applicants hope to complete the financing process and close the transaction as early as August 8, 2007.
- If the Applicants cannot timely consummate their transaction, the companies involved will suffer significant commercial and strategic harm that will ultimately harm consumers. Further delays in FCC approval will complicate the financing process, create uncertainty among shareholders, and endanger the Applicants' ability to close the transaction. Approval of the STA request is in the public interest.

## Chronology of Events

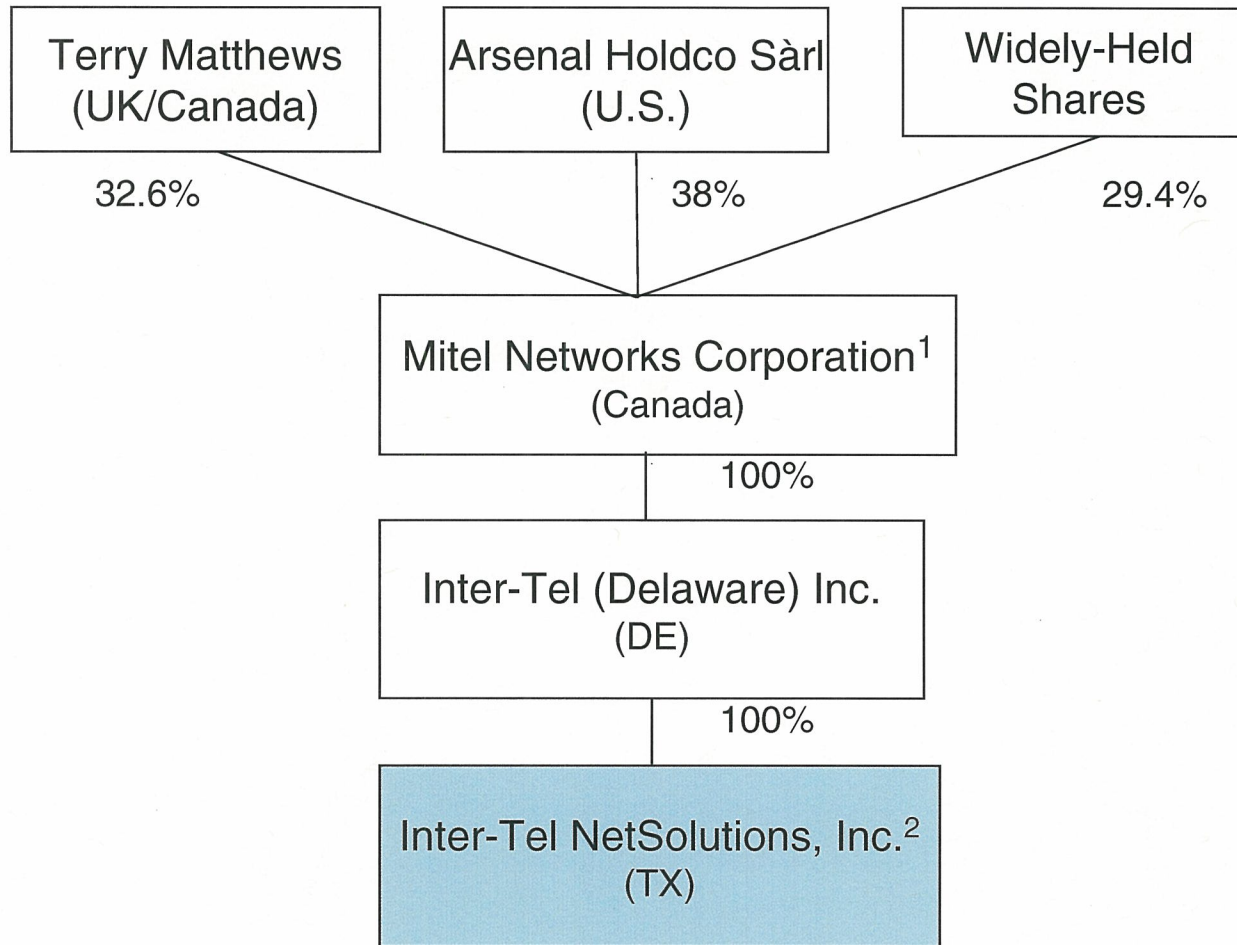

- April 26, 2007: Agreement and Plan of Merger signed.
- June 8, 2007: Applicants filed a combined international and domestic 214 application.
- June 11, 2007: Commission staff advised Inter-Tel that the application was subject to “red-light” status (2 delinquent payments alleged: approximately \$99,217 and \$23,721).
- June 12, 20007: Inter-Tel first advised Commission that it was unable to confirm the delinquent debt of \$99,217--Inter-Tel records showed such payments were made in timely manner.
- June 12, 2007 - July 25, 2007: Numerous Inter-Tel contacts with various FCC and USAC bill collection staff without response seeking resolution of the apparent error in Commission records.
- June 15, 2007: NetSolutions paid the \$23,721 regulatory fee balance to the Commission.
- July 12, 2007: The Commission dismissed the domestic 214 application.
- July 25, 2007: 214 application re-filed with Wireline Bureau.
- July 25, 2007: USAC’s General Counsel informed Inter-Tel that the remaining “red-light” bill was, in fact, a Commission/USAC billing error. USAC’s General Counsel referred Inter-Tel to the FCC’s General Counsel’s office for resolution of the “red-light” on the erroneous bill.
- July 26, 2007: The FCC’s General Counsel’s office advised Inter-Tel that it had in fact determined that the \$99,217 bill was erroneously reflected in the Commission’s records as a delinquent debt and that Commission records would be corrected to lift the “red-light” status.
- July 26, 2007: Inter-Tel discovered that a *new* “red-light” status had been imposed on NetSolutions for an apparently unpaid amount of \$8,987.39 for 2006 annual regulatory fees. NetSolutions has confirmed that it has timely paid that amount (as evidenced by the FCC’s cancelled check), and that this “red-light” status is also in error. On July 27, 2007, NetSolutions paid the 2006 regulatory fee again in order to quickly lift the remaining “red-light,” and will separately seek an appropriate refund of its overpayment.
- July 27, 2007: “Red light” status was lifted.
- July 30, 2007: Special Temporary Authority requested of the Wireline and International Bureaus (request filed with each Bureau).
- July 30, 2007: Wireline Bureau requested information concerning whether Mitel (or its 10% or greater owners) have any U.S.-based telecom affiliates. Resolution of that question is currently pending.

# Pre-Transaction Corporate Structure

<sup>1</sup> Inter-Tel NetSolutions is authorized to provide telecommunications services in the states.

# Post-Transaction Corporate Structure

<sup>1</sup> For business reasons, Mitel may create a wholly-owned U.S. subsidiary prior to the closing that will receive all of Mitel's shares in Inter-Tel. Inter-Tel would then be a wholly-owned indirect subsidiary of Mitel. If Mitel moves forward with the creation of this subsidiary prior to the closing of the transaction, the Applicants will promptly notify the FCC of this *pro forma* change to the transaction structure.

<sup>2</sup> Inter-Tel NetSolutions is authorized to provide telecommunications services in the states.

Re: Inter-Tel NetSolutions/Inter-Tel/Mitel  
WC DK No. 07-158  
**ITC-T/C-20070608-00221**

Dear Ms. Dortch:

The Department of Homeland Security (“DHS”), with the concurrence of the Department of Justice (“DOJ”) and the Federal Bureau of Investigation (“FBI”), request that the Federal Communications Commission (“Commission”) defer action on the applications of Inter-Tel NetSolutions, Inc., Inter-Tel, Inc., and Mitel Networks Corporation (together “Applicants”) to transfer control of domestic and international section 214 authorizations under section 214 of the Communications Act of 1934 held by Inter-Tel NetSolutions, Inc. to Mitel Networks Corporation. We ask that the FCC defer these actions until such time as DOJ, FBI and DHS (i) notify the Commission that potential national security, law enforcement, and public safety issues raised by the application have or have not been resolved, and (ii) on that basis, request appropriate action by the Commission. Necessarily, DOJ, FBI, and DHS also request that the Commission remove the application from streamlined processing.

After receiving notice of the applications, DOJ, FBI, and DHS have been in contact with the Applicant to request information related to national security, law enforcement, and public safety concerns. The company has responded to those requests, but DOJ, FBI, and DHS are still analyzing those responses and are not yet in a position to communicate our position to the FCC. DOJ, FBI, and DHS will conduct their review expeditiously and advise the Commission promptly upon its completion.

Thank you for your consideration.

Sincerely,

/s/ STEPHEN HEIFETZ
