Proceed with granting both requests from GCI, and let me know when it's done. Thanks.

Thanks. Removing Aaron.

We just need to confirm with IB as to whether or not the international 214 authorization was granted. The parties tell us it was. The file number in the joint PN that WTB issued on December 6, 2007 for the WTB, IB, and WCB authorizations (WT Docket No. 07-274) is ITC-214-19960116-00009 for Unicom, Inc.

Are we talking about WT Docket 07-274? If so, the international application is ITC-T/C-20071102-00453. We have not granted that application yet. We are awaiting further instruction on when to act.

We can grant in IBFS today. The grant will appear in our next Actions Taken PN, which will be next Thursday (May 22).

Importance: High

There's been some confusion over the grant of the GCI-United non-streamlined transfer of control (geography = Alaska). WTB put out a joint PN for this nonstreamlined transaction in December. It was a joint PN among IB, WTB, and WCB. I understand from the parties that IB granted this transaction two months ago. (IB, can you please confirm?) I also understand that WTB is granting the application today via PN. WCB is also ready to grant this application via PN as there are no competitive or other domestic issues. As you know, however, WCB typically puts its PNs on 48-hours notice before granting. I understand from the parties that this process will be fine. We therefore would propose to send up a draft

grant PN today on 48-hours notice per our usual procedures, and the transaction would then grant on Monday, May 19.

If any of this is inconsistent with your understanding or your needs, please let us know as soon as you possibly can.
