Attachment 1

Question 9

Description of Application

This application serves to notify the Commission of the *pro forma* transfer of control of Controladora de Servicios de Telecomunicaciones, S.A. de C.V. (“Consertel”) from Carso Global Telecom, S.A.B. de C.V. (“CGT”), to América Móvil, S.A.B. de C.V. (“América Móvil”) (collectively “Parties”). Consertel holds two International Section 214 Authorizations for global facilities-based and resold services (File Nos. ITC-214-19980813-00564 and ITC-214-20000519-00306).¹ América Móvil has acquired control of CGT through an exchange offering, which was consummated on June 16, 2010. Prior to the transaction, CGT and América Móvil were commonly controlled, and thus, the transfer of control is *pro forma* in nature. In a separate but concurrent transaction, América Móvil also acquired the ownership interests in Consertel’s direct parent company, Telmex Internacional, S.A.B. de C.V. (“Telint”), that were not owned by CGT.

Question 13

Consertel is authorized pursuant to Section 214 of the Communications Act of 1934, as amended, to provide global facilities-based and resold services (File Nos. ITC-214-19980813-00564 and ITC-214-20000519-00306). Consertel is a majority-owned, direct subsidiary of Telint.⁵ Telint in turn is majority-owned and controlled by CGT. Prior to the transaction, CGT and América Móvil were each ultimately controlled by the same individuals. On June 16, 2010, América Móvil acquired 99.44% of CGT through a public exchange offering. After the consummation of the transaction, the same individuals that directly controlled CGT prior to the transaction continue to control CGT indirectly through their ownership and control of América Móvil. Additionally, in a separate but concurrent exchange offering, América Móvil acquired

⁵ Telint holds 99.999999991% of the capital stock of Consertel.

32.9% of the outstanding capital stock of Telint, which was previously held by investors other than CGT. After the consummation of the transaction, CGT maintains its 60.7% ownership interest in Telint, and thus, Telint is still majority owned by CGT, with the majority of the remaining interests held by América Móvil.

Pursuant to 47 C.F.R. § 63.24(d), note 2, the transactions described above, a “Corporate reorganization that involves no substantial change in the beneficial ownership of the corporation” and an “Assignment from an individual or individuals (including partnerships) to a corporation owned and controlled by such individuals or partnerships without any substantial change in their relative interests,” are presumptively *pro forma* in nature. Thus, this transfer of control is *pro forma* and the Parties are providing notice within 30 days after the consummation of the transaction. Further, the *pro forma* transfer of control of Consertel will serve the public interest, convenience and necessity by allowing Consertel and its parent companies to structure their businesses and operations in the manner they deem most efficient.
