Answer to Questions 11 and 13

This filing reports a *pro forma* transfer of control of Marlink that occurred through a minor restructuring of Marlink’s ownership chain. Specifically, a majority of the shares of Marlink’s parent, MobSat Group Holding, have been transferred to Chrysaor, a new Luxembourg-based holding company. Chrysaor is a *société à responsabilité limitée* (the equivalent of a limited liability company) under Luxembourg law. The figures below show the ultimate ownership and control of Marlink before and after the transfer of shares to Chrysaor.

As depicted in Figure 2, shareholders who previously directly held interests in Mobsat Group Holding own 97.2% of the shares of Chrysaor, and through Chrysaor, hold substantial interests in Marlink. The Commission has previously approved these shareholders and their identical interests in Marlink’s sister company, Vizada, Inc. (“Vizada”).² Apax France VI (“Apax France”) holds a 52.1% total interest in Marlink, Altamir Amboise SCA (“Altamir Amboise”) holds a 20.3% total interest in Marlink, and Apax Parallel Investment V (“API V”) holds a 14.9% total interest in Marlink. Apax France is a *fonds commun de placement à risques* (an investment fund) organized under French law. Altamir Amboise is organized in France as a *société en commandite par action*, which is equivalent to a limited partnership in the United States. API V is a Delaware limited partnership in which an interest of greater than 99% is held by Summer Street Satellite Holding Company, Ltd. (“Summer Street”), a Cayman Islands company. Summer Street is wholly owned by GEAM International Private Equity Fund, L.P., a private equity fund organized in Delaware that is sponsored by GE Asset Management, Inc. With the exception of Chrysaor, the 10% or greater shareholders of Marlink remain the same as those approved by the Commission in its *March 2010 Ruling*.
