63.18 (d): Protel Advantage, Inc. d/b/a Long Distance Services was authorized by the Commission to provide switched resale service in File No. ITC-214-19961209-00620 granted January 31, 1997.

Answer to Question 13:

The Estate of Scott Lee currently holds 83.2% of the shares in the Company. The Estate will close in the first quarter of 2011. Prior to the closure of the Estate, the shares must transfer to the beneficiaries of the Estate. Upon receiving the shares from the Estate, the Transferees will own or control 89.2% of the shares in the Company.

The Petitioners do not seek to transfer Company's operating authority in connection with this proposed transaction. Following consummation of the transaction, Company will continue to operate under the same management without interruption.

The transfer of control of the Company to the Transferees is in the public interest. This completion of this transfer will foster competition in the telecommunications market. Company will continue to provide service under its existing name. As a pure shareholder transfer transaction completed at the ownership level of Company, the proposed transaction will not affect the Company's day-to-day operations or customers. The Company will operate as it has in the past, providing services to customers under the same rates, terms, and conditions as before and retaining the same assets used in the provision of those services.

Consequently, the transfer of ownership will be transparent to and have no adverse impact upon the Company's customers. Settling the issue of ownership with the transfer to Transferees eliminates uncertainties which arose due to the unexpected passing of the majority shareholder, and results in an entity better equipped to compete as a telecommunications service provider.

Answer to Question 20:

63.18(p) Statement for Streamlined Processing Pursuant to Section 63.12

This International Section 214 Application qualifies for streamlined processing pursuant to Section 63.12 because the applicants are not affiliated with any foreign carriers; are not affiliated with any dominant U.S. carriers whose international switched or private line services the applicant seeks authority to resell; and do not seek authority to provide switched basic services over private lines to a country for which the Commission has not previously authorized the provision of switched services over private lines. This Application therefore should be granted, pursuant to Section 63.12(a), fourteen days after the date of public notices listing this Application as accepted for filing.
