

WITHDRAWAL OF REQUEST FOR *NUNC PRO TUNC* TREATMENT

On July 22, 2011, Choice Wireless submitted the associated application (submission ID 2011003595) seeking consent for a transfer of control of the International 214 authorization held by Choice Wireless, LC. In the narrative answer to Question 13 contained in Attachment 1 of that application, Choice Wireless requested *nunc pro tunc* consent for a transfer of control that had been previously consummated and requested a waiver of the prior consent requirement contained in section 63.24(e)(1) of the Commission's rules.

By submission of this supplement, Choice Wireless hereby withdraws its request for *nunc pro tunc* treatment of its transfer of control application and waiver request and will instead submit a request for Special Temporary Authority to allow Choice Wireless to continue to provide international long distance to its customers until such time as its transfer of control application is acted upon by the Commission.
