

ATTACHMENT 1

Chrysaor S.à r.l. (“Chrysaor”) and Astrium Holding S.A.S. (“Astrium”) (together “Applicants” or “Parties”), hereby request Commission consent pursuant to Section 214 of the Communications Act of 1934, as amended, and Section 63.24 of the Commission’s rules, 47 C.F.R. § 63.24, to the transfer of control to Astrium of Mobsat Group Holding S.à r.l. (“MGH”) and its wholly owned subsidiaries. On July 30, 2011 Chrysaor, other shareholders of MGH and Astrium entered into a Share Purchase Agreement pursuant to which Astrium has agreed to acquire all of the outstanding shares of capital stock of MGH. The transaction thus will result in a change in control of two indirect wholly-owned MGH subsidiaries that hold authorizations issued pursuant to Section 214 of the Act¹ to provide international telecommunications services or have applications pending for such authority: Vizada, Inc. and Marlink, Inc. (collectively, the MGH Subsidiaries”). The Parties, the proposed transaction and its public interest benefits are described in more detail in the Consolidated Application for Consent to Transfer of Control and Petition for Declaratory Ruling, a copy of which is attached as Exhibit A.

Answer to Question 13:

Chrysàor, other shareholders of MGH and Astrium have entered into a Share Purchase Agreement pursuant to which Astrium will acquire all of the outstanding shares of capital stock of MGH. The transaction thus will result in a change in control of the two indirect wholly-owned MGH subsidiaries that hold authorizations issued pursuant to Section 214 of the Act to provide international telecommunications services: Vizada, Inc. and Marlink, Inc. Additional information regarding the proposed transaction is provided in Section II of Exhibit A.

Answer to Question 14:

Upon consummation of the transaction that is the subject of this Application, Astrium's United States operating subsidiaries will have affiliations with foreign carriers within the meaning of sections 63.09(d) and (e) of the Commission's rules that operate in the following countries: France and Algeria.

Answer to Question 15:

Astrium certifies upon consummation of the proposed transaction that it will be under common control with the following foreign carrier:

Carrier Name	Countries of Operation	Market Power
Vizada S.A.S.	France and Algeria	No

Answer to Question 16:

The foreign carrier with which Astrium will be affiliated lacks market power in the countries in which it operates. The carrier is not included in the Commission's most recent "List of Foreign Telecommunications Carriers That Are Presumed to Possess Market Power in Foreign Telecommunications Markets," DA-07-233, January 26, 2007. In addition, Astrium's prospective foreign carrier affiliate lacks 50 percent market share in the international transport, intercity services, and local access markets on the foreign end of the U.S.-foreign route.

Answer to Question 20:

This international Section 214 Application qualifies for streamlined processing pursuant to Section 63.12. Although Astrium will be affiliated with the foreign carrier identified above upon consummation of the proposed transaction, the foreign carrier affiliate is presumed to be non-dominant pursuant to section 63.10(a)(3) of the Commission's rules because it "lacks 50 percent market share in the international transport and the local access markets on the foreign end of the route." The parties will not consummate the proposed transaction until after all necessary Commission approvals are obtained.
