Answer to Question 10 of Application, required response to paragraphs (d) of Section 63.18 with respect to transferor and transferees, which requires:

A statement as to whether the applicant received Section 214 approval from the Commission for any services prior to the present application. If such approval was granted, the applicant shall provide a brief description of its authorized facilities and services”:

Dr. Devadatt Mishal has Section 214 authority (Airtel USA Inc.) ITC-214-20090222-00099 approved on March 13, 2009.

Mr. Mahfuzur Rahman has Section 214 authority (ATN Telecom Inc.) ITC-214-20100713-00278 approved on June 01, 2011.

There are no other Section 214 approvals for the transferor or transferees.

Answer to Question 13 of Application, information regarding the proposed means of transfer:

The method of transfer is via a March 29, 2012 agreement established between transferor and transferees to execute that transfer upon FCC approval. With FCC approval, the parties contemplate the continuation of the provision of existing services to customers in a transparent fashion. After receiving FCC approval, Dr. Devadatt Mishal as transferor will reduce his current 100% ownership of Airtel USA Inc. to 15% by transferring the other 85% ownership of Airtel USA Inc. to Mr. Rashid Khan, Mr. Abdul F. Sheikh and Mr. Mahfuzur Rahman. The ownership of the company upon FCC approval will be:

Answer to Question 20 of Application, “*An applicant that desires streamlined processing pursuant to Section 63.12 of the Commission’s rules must state how the application qualifies for streamlined processing.*”

This application is entitled to streamlined processing because

- (1) The applicant is not affiliated with a foreign carrier in a destination market
- (2) The applicant does not have affiliations with a dominant U.S. carrier

The Applicants will work with the Commission staff to provide all required materials that are required to deem the transfer of control application complete.

In addition, most of the Applicants are US citizens. As for the one owner that is not a US citizen (Mr. Mahfuzur Rahman), he received Section 214 from the FCC and Team Telecom in June 2011. Most important, the license holder (Airtel USA Inc.) would still remain a US carrier after the transfer of control and it is in the hands of individuals known to the Commission.

Applicants do not meet any of the conditions of § 63.12 (c) that would justify the Applicants being denied streamlined processing of the transfer of control application within the 14 day time period.
