

SUPPLEMENT TO NOTIFICATION
OF PRO FORMA TRANSFER OF CONTROL

This information is being furnished to supplement the data contained in Attachment One to the "Notification of Pro Forma Transfer of Control" filed on January 22, 2013 (*File No.* ITC-T/C-20130122-00014). The information being reported below was inadvertently omitted from the original filing. Specifically, in Attachment One, in the response identified as "Answer to Question 11," a diagram labeled "Post Transaction Control Structure" ("Control Structure Diagram") includes references to only two FCC-licensed entities that are subsidiaries of the holding company, Satcom Distribution, Inc. ("SDI"). As depicted in the Control Structure Diagram, the first of these two referenced entities, Shared Data Networks, LLC, a North Carolina limited liability company is held by SDI through an intervening subsidiary, SDN Global LLC, a Delaware limited liability company. The second of these depicted licensed entities, Satcom Global, Inc., ("SGI") a Nevada corporation, was also correctly identified in the Control Structure Diagram, showing SGI as being directly owned by SDI. The foregoing remains complete and accurate.

However, there is one further FCC-licensed entity that is also directly owned by SDI but which, through inadvertence, was not incorporated in the Control Structure Diagram, namely, Horizon Mobile Communications, Inc., ("Horizon"). This supplement is intended to correct this unintentional omission and furnish the missing data.

Horizon currently holds two authorizations from the Commission, namely, a grant of Section 214 Authority per *File No.* ITC-214-20070110-00021 and a license for Earth Station E070006 (blanket authority to distribute Inmarsat Broadband Global Area Network services). Horizon is 100 % directly owned by SDI.

The information set forth above, as well as all information and certifications contained in the originally filed Notification of Pro Forma Transfer of Control are hereby attested to by the undersigned acting in his capacity as a duly authorized officer of both One Horizon Group plc and Intelligent Communication Enterprise Corp.
