**JOINT APPLICATION FOR EXPEDITED APPROVAL OF INDIRECT  
TRANSFER OF CONTROL**

Comes now Connect Acquisition Corp. (“Connect”), Securus Technologies, Inc. (“STI”), and Securus Investment Holdings, LLC (“SIH”) (collectively the “Applicants”), acting through counsel and pursuant to Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. §214, and Sections 63.03, 63.04 and 63.24 of the Commission’s Rules, 47 C.F.R. §§ 63.03, 63.04, 63.24 (2012), to request approval, on an expedited basis, of the indirect transfer of control of STI’s domestic and international Section 214

authority through a merger transaction involving its current parent, Connect, and SIH, as described below. In connection with this proposed indirect transfer of control, Applicants include herein, to the extent applicable, the information requested pursuant to Sections 63.18 and 63.04 of the Commission's rules, 47 C.F.R. §§ 63.18, 63.04. See Sections V and VI, below.

## **I. STREAMLINED PROCESSING**

1. This Application is entitled to presumptive streamlined processing under Section 63.10(a)(3) of the Commission's rules because, while STI will be affiliated with two foreign carriers in destination markets, STI qualifies for non-dominant classification on the routes between the United States and the relevant affected countries because the affiliated carriers in these countries have no market power on the foreign end of any of these routes. These affiliates lack 50 percent market share in the international transport and the local access markets in their respective foreign markets, and none is listed on the Commission's List of Foreign Telecommunications Carriers that Are Presumed to Possess Market Power in Foreign Telecommunications Markets. As such, STI is presumptively classified as non-dominant on these international routes.

2. This Application is entitled to streamlined processing under Section 63.03(b)(2)(i) of the Commission's rules because, immediately following the transaction: (a) the Applicants and their affiliates combined will hold less than a ten (10) percent share of the interstate, interexchange market, (b) the Applicants and their affiliates would provide competitive telephone exchange services exclusively in geographic areas served by a dominant local exchange carrier that is not a party to the transaction, and (c) neither the Applicants nor their affiliates are dominant with respect to any service.

## **II. THE APPLICANTS**

3. STI is authorized to provide domestic interstate and international services as a non-dominant carrier (“the Services”). With respect to international services, STI currently holds an International Section 214 Certificate to provide global international facilities-based and resale services between the United States and international points. *See* ITC 214-19991115-00713. STI is currently authorized to provide domestic interstate services pursuant to Section 63.01 of the Commission’s rules.

4. STI is a privately held and wholly-owned subsidiary of Securus Technologies Holdings, Inc. (“STHI”), which is a State of Delaware corporation, with its primary headquarters located at 14651 Dallas Parkway, 6<sup>th</sup> Floor, Dallas, Texas 75254 Phone: (972) 953-4123, Fax: (972) 953-4289. STHI is in turn a wholly-owned subsidiary of Securus Holdings, Inc. (“SHI”), also a Delaware corporation. SHI is in turn a subsidiary of Connect. STHI, SHI and Connect are not providers of telecommunications services. The ultimate controlling interest in STI is held by Castle Harlan Partners V, L.P. (“Castle Harlan Partnership”), through an indirect controlling interest in Connect. Castle Harlan Partners V, L.P. is managed by Castle Harlan, Inc. (“Castle Harlan”), a New York-based investment firm.<sup>1</sup>

5. SIH is a State of Delaware limited liability company with its primary offices located at 111 Huntington Avenue, 29th Floor, Boston, MA 02199. Approximately 95.3% of the interests in SIH will be held by Securus Special Investments, LLC (“SSI”), with the remaining interests to be held by members of STI and its affiliates’ management. SSI will be controlled by ABRY Partners VII, L.P. (“ABRY VII”), an affiliate of ABRY

<sup>1</sup> The Commission approved the transfer of control to Connect in 2011 (File No. ITC-T/C-20110414-00102 and Docket No. WC 11-68.)

Partners (“ABRY”), a Boston-based private equity investment firm focused solely on media, communications, business, and information services investments.

### **III. RESPONSE TO QUESTION 13 - DESCRIPTION OF THE PROPOSED TRANSACTION**

6. **General Description Of Merger Agreement** – SHI has entered into an Agreement and Plan of Merger, dated March 14, 2013, among (a) Connect, (b) SIH, (c) Connect Merger Sub, Inc. (“Connect Merger Sub”), and (d) Connect Acquisition LLC, a Delaware limited liability company (“Merger Agreement”). A detailed description of the terms of the Merger Agreement is set out below, but upon the completion of the proposed transaction STI will be a wholly-owned, indirect subsidiary of SIH.

7. **Details of Transaction** – The below description of the proposed transaction includes the following:

- a. The current ownership structure of STI and its affiliates.
- b. The acquiring entities involved in the merger.
- c. The merger process.
- d. The resulting ownership structure of STI and its affiliates.

a. **Current Ownership** – As noted above, Connect is a Delaware corporation and the sole shareholder of SHI. SHI is a Delaware corporation and the sole shareholder of STHI, also a Delaware corporation. STHI has two wholly-owned, direct subsidiaries, both of which are Delaware corporations, that are regulated by the Commission: STI and T-NETIX, Inc. (“TNI”). TNI is in turn the parent of T-NETIX Telecommunications Services, Inc. For purposes of this Application only STI is relevant because it holds domestic and international Section 214 authorizations. The Applicants are filing simultaneously separate applications to transfer control of TNI and T-NETIX

Telecommunications Services, Inc., which also hold Section 214 authorizations.

**Attachment A** hereto shows the existing ownership structure of STI.

b. **Acquiring Entities** – Connect Merger Sub is a Delaware corporation and wholly-owned subsidiary of SIH.

c. **The Merger Process** – The proposed indirect transfer of STI will occur through a merger with Connect Merger Sub, which will include the following steps:

(i) SIH has formed Connect Merger Sub solely for the purpose of effecting the proposed transaction.

(ii) Connect Merger Sub shall merge with and into Connect. Upon completion of this merger, the separate existence of Connect Merger Sub will cease and Connect will be the surviving corporation.

d. **The Resulting Ownership Structure** – Upon completion of the proposed transaction, STI will become an indirect, wholly-owned subsidiary of SIH. **Attachment B** hereto shows the post-merger-closing ownership structure of STI.

8. **Transparency Of Transaction** – Following consummation of the proposed transaction, STI will remain a separately certificated entity and continue to provide its inmate telephone services as they are presently provided. There will be no transfer of STI's assets used in the provision of the services or transfer or assignment of its authorization. The existing senior management and key personnel of STI will continue in their present positions.

9. The transaction will also be seamless and transparent to STI's customers who will receive uninterrupted service from STI. There will be no immediate changes in the terms

and conditions of the services provided by STI. STI will continue to market, brand and bill its services as it has been doing.

**IV. PUBLIC INTEREST REASONS FOR GRANT**

10. The proposed transaction is non-controversial and will serve the public interest by providing STI with access to the substantial financial assets of ABRY. Consummation of the proposed transaction will help STI to continue to provide services to its customers and potentially expand or enhance those services at new facilities.

11. There will be no changes in rates, terms or conditions of STI's services as part of or as a result of this transaction; those services will continue on their current basis. In addition, the management and relevant contact information for STI will remain the same. As indicated above, the Commission has previously approved an analogous parent-level transaction involving STI, concluding that it was in the public interest. The Commission should reach the same conclusion in this case.

(p) Streamlined Processing. This Application for transfer of control of international Section 214 authorization qualifies for streamlined processing pursuant to Section 63.12(c). 47 C.F.R. § 63.12.
