**SUPPLEMENT TO JOINT APPLICATION FOR CONSENT TO TRANSFER
INTERNATIONAL AND DOMESTIC AUTHORITY PURSUANT TO SECTION 214
OF THE COMMUNICATIONS ACT OF 1934, AS AMENDED**

CoxCom, LLC (“Cox”), EasyTel Communications Carrier Corporation (“EasyTel”) and Timothy E. Kloehr (collectively, the “Applicants”), by their attorneys, hereby submit the following supplemental information at the request of the Commission staff and in connection with the above-referenced application (the “Joint Application”).

Information on Competitors to Cox and EasyTel

As described in the Joint Application, EasyTel provides telecommunications and cable television services to business customers, principally in Tulsa, Oklahoma and nearby areas.

EasyTel has no residential customers. In the business services market in the Tulsa area, Cox and EasyTel each compete with incumbent local exchange carriers (“ILECs”), such as AT&T, along with various well-established competitive local exchange carriers (“CLECs”) and other providers of services to business customers. The following is a partial list of competitors to Cox and EasyTel in the business market:

AT&T

AT&T provides telecommunications services to consumers, businesses and other providers across the United States, including the Tulsa metropolitan market. AT&T is the largest provider of both mobile telephone and fixed telephony services in the United States. AT&T generates approximately \$127 billion in annual revenue and has more than 1,000 employees in Tulsa.

Verizon Business

Verizon Business is an operating division of Verizon, Inc. Verizon Business provides Internet protocol (“IP”), data, voice and wireless services to businesses and federal government agencies across the United States, including the Tulsa metropolitan market. In addition, Verizon Business offers VoIP, Internet access, security, information technology solutions and hosting, managed networks, premises equipment, contact centers and conferencing products. Verizon generates approximately \$118 billion in annual revenue and has more than 1,000 employees in Tulsa.

Level 3 Communications

Level 3 Communications provides local and long distance telephone services; core network services, including transport services, private lines, transoceanic services and dark fiber, as well as related professional services; and colocation and data center services, such as cloud,

hosting and application management solutions. Level 3 Communications provides services to business customers of all sizes across the United States, including the Tulsa metropolitan market. Level 3 generates approximately \$6.4 billion in annual revenue and has more than 500 employees in Tulsa.

Windstream Communications

Windstream Communications provides local and long distance telephone, Internet, data and managed services to businesses of all sizes across the United States, including the Tulsa metropolitan market. Windstream generates approximately \$6.1 billion in annual revenue.

tw telecom

tw telecom provides local and long distance voice services, data networking, converged, IP-based virtual private network and Internet access services to business customers across the United States, including the Tulsa metropolitan market. tw telecom generates approximately \$1.5 billion in annual revenue.

Cogent Communications

Cogent Communications provides high-speed Internet access and IP-based and non-IP communications services primarily to small and medium-sized businesses, communications service providers and other bandwidth-intensive organizations across the United States, including the Tulsa metropolitan market. Cogent Communications generates approximately \$333 million in annual revenue.

Birch Communications

Birch Communications provides IP-based communications and cloud services to small- and medium-sized businesses across the United States, including the Tulsa metropolitan market. Birch Communications generates approximately \$150 million in annual revenue.

Logix Communications

Logix Communications provides telephone and Internet and data services to small and medium-sized businesses located in Houston, San Antonio, Austin, Dallas, Ft. Worth, Oklahoma City and Tulsa. Logix is privately held and does not publicly disclose its financial results.

Broadvox

Broadvox provides integrated telephone, Internet and data services to small business, medium-sized business, enterprise and carrier customers across the United States, including the Tulsa metropolitan market. Broadvox is privately held and does not publicly disclose its financial results.

Bixby Telephone Company/BTC Broadband

BTC Broadband provides local telephone and long distance telephone, Internet and data and cable television services to residential and business customers located in Tulsa and Bixby, Oklahoma. Bixby Telephone Company is the ILEC serving Bixby, Oklahoma and its wholly-owned operating division BTC Broadband is a CLEC serving the Tulsa metropolitan market. Bixby Telephone Company is privately held and does not publicly disclose its financial results.

Other Competitors

In addition to the competitors listed above, both Cox and EasyTel compete with a number of providers that deliver integrated telecommunications services to customers via wireless networks or via a cloud-based “over-the-top” delivery model. The wireless providers that serve customers in the Tulsa metropolitan market include AT&T Wireless, Verizon Wireless, US Cellular and T-Mobile. Competitors in the cloud-based “over-the-top” category include Bandwidth.com, Inc., RingCentral, Inc., Vonage and 8x8, Inc.

Please inform the Applicants if any questions should arise in connection with this submission.

Respectfully submitted,

CoxCom, LLC
