Re: WC Docket 13-303

Dear Ms. Dortch:

The Joint Application for a transfer of control of Callis Communications, Inc. (“Callis”) to Cellular South, Inc. (“CSI”) is supplemented to provide the following information:

1. CSI provides wireless service in areas in which Callis provides CLEC services. CSI also sells hosted IP telephony services in the same areas.
2. CSI has only two ILEC affiliates which are identified in footnote 3 of the application. In addition, CSI has one CLEC affiliate, Telepak Networks, Inc., and that entity offers CLEC service in areas where Callis currently offers CLEC service.
3. Section V(p) of the application, referring to Section 63.18(p) of the Commission’s rules, is amended to request streamlined processing of the application pursuant to Section 63.03(b)(2)(ii). Callis is a CLEC and is therefore classified as a non-dominant service provider.
4. Section V(h) of the application, referring to Section 63.18(h) of the Commission’s rules, is supplemented to confirm that there are no 10 percent or greater interest holders of Telapex ESOP.

Very truly yours,

David L. Nace
