

Alaska Communications Systems Internal Reorganization on September 8, 2015
Effecting a *Pro Forma* Transfer of Control of **Northstar License Corporation**,
Holder of International Section 214 Authorization

Attachment 1

Answer to Question 10:

On September 8, 2015, Alaska Communications Systems Group, Inc. (“ACS”) effected an internal reorganization affecting its subsidiaries, **Northstar License Corporation** (international Section 214 and submarine cable landing license holder) and Alaska Northstar Communications, LLC (submarine cable landing license holder).

Separate notice was provided on September 9, 2015 as to the *pro forma* transfer of control affecting the two submarine cable landing licenses.

In this transaction, Crest Communications Corporation (“Crest”), a wholly-owned subsidiary of ACS, was made a wholly-owned subsidiary of Alaska Communications Systems Holdings, Inc. (“Holdings”), also wholly-owned by ACS.

Crest is the immediate parent of WCI Cable, Inc., which in turn is the parent of **Northstar License Corporation** and Alaska Northstar Communications, LLC.

As a result of this internal reorganization, **Northstar License Corporation** and Alaska Northstar Communications, LLC remain wholly-owned subsidiaries of WCI Cable, Inc., which remains a wholly-owned subsidiary of Crest. Crest now is wholly-owned by Holdings, which remains wholly-owned by ACS.

This reorganization does not affect the day-to-day operations of **Northstar License Corporation** or Alaska Northstar Communications, LLC or their international facilities or licensed operations.

This transaction is *pro forma* within the meaning of Section 63.24 of the Commission’s rules, 47 C.F.R. §63.24.
