INTRODUCTION

The proposed \$1.5 Billion dollar sale of Securus Technologies from ABRY Partners to Platinum Equity is a microcosm for everything that is wrong with the prison-industrial complex and the growing trend of local, state and federal governments privatizing services they once provided, without any consideration of the impact on their citizens.

In order to obtain monopoly control to provide inmate calling services at a correctional facility, private companies like Securus voluntarily agree to split the revenue they earn with the government agency. This revenue-sharing scheme has led to Securus and other companies voluntarily agreeing to remit to the correctional authority up to 98% of the revenue earned in order to be selected as the sole source of telephone, video visitation, email, education and commissary services for inmates and their families at that correctional institution.

The instant transaction proposes to assign the FCC authorizations associated with Securus from ABRY Partners, which paid \$640 million for control of Securus in 2013, to Platinum Equity, which has agreed to pay \$900 million more than ABRY, just four short years later.

In 2013, the Commission denied a request to set aside the ABRY transaction due, in part, to commitments by ABRY and the Securus leadership to not make any "changes in rates, terms, or conditions of service as a result of the transaction." As reflected herein, Securus failed to comply with that commitment by actually raising Intrastate ICS rates across the country.

In addition, when the Commission prohibited per-call connection charges and flat-rate fees in 2016, Securus simply rebranded the charges as "flat-rate fees" and continued on. Coupled with numerous public admonishments for violating other Commission rules, policies and procedures, Securus has clearly demonstrated that it lacks the character qualifications to remain a holder of Commission-issued authorizations.

Therefore, in light of Securus' abuse of its position as the monopoly service provider at thousands of correctional authorities, the Commission must deny the Applications, and immediately launch an investigation into these serious violations of Commission rules, policies and procedures. In the alternative, the Applications must be held in abeyance while the Commission conducts its investigation.

Importantly, none of the issues raised in the instant Petition depend on the unresolved question of whether the Commission has the requisite authority under Section 276 to regulate Intrastate rates and fees. Instead, the issues raised herein relate directly to Securus' repudiation of the commitments made to the Commission in 2013, and the past serious violations of Commission rules, policies and procedures which call into question whether Securus has the requisite character qualifications to hold authorizations issued by the Commission.

PETITION TO DENY

Pursuant to Section 63.03(a) and Section 63.52(c) of the Commission's rules, The Wright Petitioners, Citizens United for Rehabilitation of Errants, Prison Policy Initiative, The Human Rights Defense Center, The Center for Media Justice, Working Narratives, The United Church of Christ, OC Inc., and Free Press, hereby submit this Petition to Deny the above-referenced applications (the "Applications") to transfer control of the above-referenced Section 214 Authorizations (the "Authorizations") from Securus Investment Holdings, LLC ("SIH"), to SCRS Acquisition Corporation ("SCRS"). SIH has agreed to transfer control of the Authorizations to SCRS.¹

¹ See Domestic Section 214 Application Filed For The Transfer Of Control Of Securus Technologies, Inc., T-NETIX, Inc., and T-NETIX Telecommunications Services, Inc., To SCRS Acquisition Corporation Public Notice, DA 17-500 (May 23, 2017) and See

SIH is ultimately controlled by ABRY Partners VII, LP, and SCRS is ultimately controlled by Tom and Holly Gores through the Gores Family Trust.² In addition to his other interests, Mr. Gores personally owns a National Basketball Association team, the Detroit Pistons.

When the Commission adopted rules to prohibit per-call connection fees and flat-rate charges, Securus simply renamed its connection fees as "first-minute rates" and began charging even higher rates. Moreover, the Licensees have been cited repeatedly for violating the Commission's rules, procedures and policies, leading to three public rebukes by the Commission. These practices raise serious concerns whether Securus has the requisite qualifications to hold Commission authorizations.

Therefore, as discussed in more detail below, the Applications must be dismissed. Securus is in violation of Section 64.6080 and Section 64.6090 of the Commission's rules and has a long history of abusing Commission rules, policies and procedures.³ As such, the transfer of control of the Authorizations from SIH to SCRS would not be in the public interest, convenience and necessity. In the alternative, the Commission should hold the Applications in abeyance until such time that the Commission completes an inquiry of Securus' wide-scale violation of the Commission's proscription against per-connection and flat-rate charges.

BACKGROUND

A. Procedural History: Commission Bans Per-Connection and Per-Call Charges Of The Sort Exploited By Securus

In October 2015, the Commission adopted the Second Report and Order in the *Rates for Interstate Inmate Calling Services* rulemaking proceeding.⁵ In addition to the adoption of rate caps for Interstate and Intrastate inmate calling services ("ICS"), the Commission adopted Section 64.6080, which prohibited an ICS provider from imposing a per-call or per-connection charge. The Commission also adopted Section 64.6090, which prohibited an ICS provider from imposing a flat-rate charge for ICS calls.

In banning per-call, per-connection and flat-rate charges, the Commission noted that no ICS provider submitted comments in support of the retention of the charges, and highlighted the support of one ICS provider, Pay Tel Communications,

⁴ 47 C.F.R. § 1.939 (2017). To the extent necessary, leave is requested to submit this Petition in connection with the Domestic Section 214 applications after the period specified in DA 17-500. Because the Commission cannot grant final approval until the 30-day period has been completed, and because it is still possible that the Commission staff could, on its own motion, remove the Applications from streamlined processing, no harm will be caused by the acceptance of this Petition.

⁵ See *Rates for Interstate Inmate Calling Services*, Second Report and Order, 30 FCC Rcd 12,763 (Nov. 5, 2015), 80 FED REG 79,136 (Dec. 18, 2015).

in the Commission's adoption of a rule that disallowed "the use of per-call or per-connection charges."⁶ The Commission also noted that the "Joint Provider Proposal" submitted in advance of the *Second Report and Order* by Securus, Global Tel*Link and Telmate did not include per-call or per-connection charges.⁷ Moreover, the Commission agreed with Pay Tel Communications that imposing flat-rate charges for ICS calls which did not depend on the duration of the ICS call "does not comport with our requirement to make ICS rates just, reasonable and fair."⁸

Subsequent to the adoption of the *Second Report and Order*, certain ICS providers submitted petitions for stay, which were denied by the Wireline Competition Bureau (the "Bureau") on January 22, 2016.⁹ In particular, the Bureau denied requests by Securus and Telmate to stay the effectiveness of Section 64.6080 and Section 64.6090. The Bureau's decision to not stay the effectiveness of Section 64.6080 and Section 64.6090 was affirmed by the United States Court of Appeals for the District of Columbia Circuit on March 7, 2016,¹⁰ and was not addressed in the recent Order, decided on June 13, 2017.¹¹

Therefore, Section 64.6080 and Section 64.6090 became effective on March 17, 2016 for prisons and June 20, 2016 for jails, and remain effective as of today.¹² In short, per-call, per-connection and flat-rate charges have been prohibited for more than a year now. Securus fought the prohibition, and when it lost the fight, Securus it nevertheless continued the practice of charging the fees, but under a different name.

B. Securus Has Long Used Per-Call And Per-Connection Charges To Inflate Call Charges

Securus had a long history of charging a per-call or per-connection fee in addition to a traditional per-minute rate. Alternatively, it charged a flat-rate regardless of the length of the call. One of the first attempts to capture a snapshot of these charges was published by the *Prison Legal News* in April 2011.

As reflected in the *PLN* study, attached hereto as Exhibit A, Securus charged per-call connection fees between \$1.20 and \$3.95 as far back as 2007. An updated study was supplied by the Wright Petitioners in their 2013 Comments.¹³ Subsequently, the Wright Petitioners conducted a comprehensive study of Securus' Interstate and Intrastate rates in September 2013. As reflected in Exhibit B, prior to the adoption of the cap on Interstate ICS rates, Securus charged inmates and their families ICS rates up to \$17.30 for a fifteen minute Interstate call.

¹² See *Wireline Competition Bureau Updates Applicable Rates For Inmate Calling Services*, Public Notice, 31 FCC Rcd 2247-2248 (2016).

¹³ *Comments of The Wright Petitioners*, Exhibit E, WC 12-375 (March 23, 2013).

We also collected data with respect to local Intrastate calls.¹⁴ As shown in Exhibit C-1, Securus routinely charged a per-call connection or flat-rate fee regardless of the length of the call, with most such charges between \$1.00 and \$4.25. The result was that a local Securus call cost an average of \$3.71 for fifteen minutes, and that an average of \$2.71 was charged to inmates and their families regardless of the length of the call. Once the Interstate rate caps went into effect in 2014, Securus merely shifted its practice of charging unjust, unreasonable and unfair ICS rates to Intrastate calling.

Moreover, once Section 64.6080 and Section 64.6090 went into effect in 2016, it is clear that Securus simply renamed its "connection fee" or "flat-rate charge" as a "first-minute" charge. As reflected in Exhibit C-2, Securus now charges a "first-minute" rate that is almost identical to the per-call connection fee or flat-rate fee it charged prior to the effective date of Section 64.6080 and Section 64.6090. Even worse, for several county facilities Securus now charges more for its "first-minute" rates than it used to charge in 2013. Similar disparities between the first-minute rate and those charged for the 2nd minute and thereafter are shown in Exhibit D.

Of special note are the following Intrastate rates being charged by Securus, with some of the highest first-minute rates being charged in Michigan, the home of the Detroit Pistons since 1957:

¹⁴ Where applicable, we used the telephone number of the closest Domino's pizza restaurant to the correctional facility.

State	Facility	ICS Provider	1st Min. Charge (\$)	Add. Min Charge (\$)	15 Min. Rate (\$)
MI	Sanilac County Jail	Securus	8.20	0.01	8.34
MI	Benzie County Sheriff	Securus	5.90	1.19	22.56
MI	Roscommon County Jail	Securus	5.90	1.19	22.56
MI	Van Buren County Jail	Securus	5.90	1.19	22.56
MI	Marquette County	Securus	5.87	1.16	22.11
MI	Wexford County Jail	Securus	5.87	1.16	22.11
MI	Branch County Jail	Securus	5.79	1.08	20.91
MI	Saginaw County Sheriff	Securus	5.73	1.02	20.01
MI	Montcalm Sheriff	Securus	5.70	0.99	19.56
MI	Alger County Sheriff	Securus	5.65	0.69	15.31
MI	Ontonagon County Jail	Securus	5.65	0.69	15.31
MI	Presque Isle County Jail	Securus	5.65	0.69	15.31
MI	Muskegon County Jail	Securus	5.64	0.97	19.22
MI	Clare County Jail	Securus	5.61	1.19	22.27

By charging a rate of \$8.20 for the first minute and a token \$0.01 for the following minutes, Securus flouts the prohibition on per-call and flat-rate fees. While the disparity between the first-minute rate and subsequent minute charges are less gaping at other facilities, these disparities are still stark, and these first-minute rates are an obvious attempt to replace the per-call connection and flat-rate fees that have been prohibited under Sections 64.6080 and 64.6090 of the Commission's rules since 2016.

Overall, the evidence is clear. Subsequent to the imposition of rate caps on Interstate calls, Securus merely shifted its excessive rates to Intrastate calls. Moreover, *when the Commission adopted rules to prohibit per-call connection and flat-rate fees, Securus simply renamed its connection fees as "first-minute rates" and began charging even more money for the same prohibited charge.*

Therefore, Securus' adoption of first-minute rates, which are at the same level if not higher than the now-banned "per-call connection fees" and "flat-rate fees" violated Section 64.6080 and Section 64.6090 of the Commission's rules. As such, the Commission must deny the Applications and initiate an inquiry into Securus' egregious rule violations. At the very least, the Commission must hold the Applications in abeyance while it completes its inquiry into this practice.

DISCUSSION

A. Standard of Review.

In 2013, the Commission had the opportunity to consider the transfer of control of the Licensees when ABRY Partners paid \$640 million to Castle Harlan. At that time, several public interest organizations petitioned the Commission to deny those applications due to Securus' excessive rates, and the lack of an affirmative showing that the proposed transaction would serve the public interest.¹⁵

In reviewing the advocates' petition and reply to Securus' Opposition, the Commission stated:

a threshold requirement in [the] transaction review process is whether the Applicants meet the requisite character qualifications to hold Commission licenses. To meet this requirement, Commission precedent requires that an applicant must operate in a manner consistent with the Act and the Commission's rules.¹⁶

¹⁵ See *Applications Granted for the Transfer of Control of the Operating Subsidiaries of Securus Technologies Holdings, Inc. to Securus Investment Holdings, LLC*, Public Notice, 28 FCC Rcd 5720 (WCB 2013) ("*2013 Decision*").

¹⁶ *Id.*, 28 FCC Rcd at 5724 (citing *Application of AT&T Inc. and BellSouth Corporation Application to Transfer Control*, Memorandum Opinion and Order, 22 FCC Rcd 5662, 5674 (2007) and *Applications of Guam Cellular and Paging Inc. and DoCoMo Guam Holdings, Inc.*, Memorandum Opinion and Order and Declaratory Ruling, 21 FCC Rcd 13,580 (2006)).

Ultimately, the Commission rejected the advocates' petition due, in significant part, to the pendency of WC Docket 12-375, which was considering the issue of excessively high rates and fees charged by Securus and other ICS providers.¹⁷

However, in making this determination, the Commission relied upon the Licensees' commitment that "there [would] be no changes in rates, terms or conditions of service as a result of the transaction."¹⁸ In fact, that commitment was included with the Licensees' 2013 application, and then reaffirmed in a sworn Declaration of Dennis Reinhold, the Vice President, General Counsel and Secretary of Securus Technologies, Inc., T-NETIX, Inc., and T-NETIX Telecommunications Inc., which was provided to the Commission on April 17, 2013, and also restated in a letter from Securus' counsel on April 24, 2013.¹⁹

B. Securus' Actions Demonstrate That It Is Unqualified to Hold Authorizations.

It is clear from the information provided in Exhibit C1 and Exhibit C2 that this commitment was abandoned soon after the transfer of control of Securus was completed. The substantial restructuring of Securus' Intrastate rates between 2013 and the present is in direct contrast to commitments provided by Securus' officers in 2013 in exchange for approval of the transaction.

Moreover, Securus also committed several violations of the Commission's rules and policies. Specifically, Securus has repeatedly misrepresented its ability to pay Interstate site commissions. Instead, it has informed its correctional institution

¹⁷ *2013 Decision*, 28 FCC Rcd at 5723.

¹⁸ *Id.*

¹⁹ *Id.*, 28 FCC Rcd at 5723, nt. 32.

clients that the Commission had affirmatively banned the practice of paying site commissions on Interstate ICS calls. Examples of this incorrect advice to county governments in Michigan are provided as Exhibit E, all of which contain some variation of "in accordance with the FCC Order, effective as of February 11, 2014, no commission shall be paid on revenues earned through the completion of Interstate calls of any type received from the Agreement." Securus' policy remained in place even though the Commission released a Public Notice that publically rebutted Securus' assertions made to its customers.²⁰

Additionally, in the lead up to the adoption of the 2015 *Second Report and Order*, Securus submitted a fact sheet to the Commission asserting that "the rates and rules in the Fact Sheet could be 'a business-ending event' for the company."²¹ As provided herein in Exhibit F, at the same time that Securus was arguing that it could go out of business, Securus was earning Total Revenue of \$484,339,000, with Total Assets of \$1,277,442,000. Furthermore, in 2016, its Total Revenue figure was \$583,659,000, with Total Assets of \$1,262,901,000. Thus, even if Securus' unverified assertion that it "currently pays approximately \$140 million of site commissions" was accurate at the time, Securus was nowhere close to going out of business on October 7, 2015.²²

Finally, it is worth noting that after the release of the *Second Report and Order*, the Commission found it necessary to take the unprecedented step of

publically rebuking Securus for sending out "misleading statements" to its correctional institution clients.²³ Then, just one month later, the Commission was forced yet again to publically admonish Securus for not following Commission rules and procedures.²⁴

In light of detailed information demonstrating that Securus has knowingly violated Section 64.6080 and Section 64.6090 of the Commission's rules by simply renaming its "per-call connection" and "flat fee" charges as "first-minute" rates, coupled with the overwhelming evidence that Securus has repeatedly abused the Commission's rules, policies and procedures, the Commission cannot find that Securus "operate[d] in a manner consistent with the Act and the Commission's rules."²⁵

²³ See *Letter to Robert Pickens, President, Securus Technologies, Inc.*, 30 FCC Rcd 13,666 (Dec. 3, 2016) ("If we observe or are made aware of evidence of price gouging or other harmful behavior through, but not limited to, increased rates, ancillary service charges, and/or site commissions, we will not hesitate to take appropriate remedial action up to and including enforcement action pursuant to our legal authority under sections 201 and 276 or referral to another appropriate agency.").

²⁴ See *2016 Stay Order*, 31 FCC Rcd at 261, nt. 3 ("We note, however, that this is not the first time that Securus, in particular, has attempted to make filings that are not permitted by the Commission's rules. We admonish Securus that repeated and willful attempts to circumvent the Commission's procedural rules will not be tolerated and may result in sanctions."). See also *Notice of Prohibited Presentations in the Matter of Implementation of the Pay Telephone Reclassification and Compensation Provisions of the Telecommunications Act of 1996 et al.*, Public Notice, 30 FCC Rcd 13,424 (OGC, Nov. 20, 2015).

²⁵ *2013 Decision*, 28 FCC Rcd at 5723.

CONCLUSION

The Commission requires licensees to comply with the Communications Act of 1934, as amended, and with the Commission's rules, policies and procedures. As shown herein, Securus has flouted Section 64.6080 and Section 64.6090 of the Commission's rules by simply renaming its existing "per-call connection fee" and "flat-rate charges" as a "first-minute fee."

Not only did Securus shift its high ICS rates from Interstate to Intrastate service, it actually took the additional step to increase Intrastate rates. As a result, a 15-minute Intrastate call from sixteen (16) county jails in Michigan, and twenty-eight (28!) county jails overall, costs more than \$20, entirely due to the fact that the first-minute rate at these correctional facilities is at least \$5.00 higher than the charge for each additional minute.

In light of the ongoing violations of Section 64.6080 and Section 64.6090 of the Commission's rules, coupled with Securus' serial violations of other rules and policies that led to its repeated admonishment, the Commission must deny the Applications and immediately initiate a proceeding to investigate these violations. At the very least, the Commission must hold the Applications in abeyance until the Commission's investigation has been completed.

We will pay you commission (the "Commission") based on the Gross Revenues that we earn through the completion of collect calls, except for interstate calls, placed from the Facilities as specified in the chart below. "Gross Revenues" shall mean all gross billed revenues relating to completed collect calls generated by and through the Inmate Telecommunications System. Regulatory required and other items such as federal, state and local charges, taxes and fees, including transaction funding fees, transaction fees, credits, billing recovery fees, charges billed by non-LEC third parties, and promotional programs are excluded from revenue to the Provider. We shall remit the Commission for a calendar month to you on or before the 30th day after the end of the calendar month in which the calls were made (the "Payment Date"). All Commission payments shall be final and binding upon you unless we receive written objection within sixty (60) days after the Payment Date. Your payment address is as set forth in the chart below. You shall notify us in writing at least sixty (60) days before a Payment Date of any change in your payment address.

Signing Bonus. On the first day of the month following the installation of the System, we will pay you a one-time signing bonus of \$3,500.00. If the Agreement is terminated for any reason before the end of the Initial Term, you will refund to us an amount equal to the signing bonus times a fraction, the numerator of which is the number of months between the date of termination and the end of the Initial Term, and the denominator of which is the number of months in the Initial Term plus interest on the prorated amount in the amount of the lower of (a) fifteen percent (15%) per annum and (b) the maximum rate allowed by law. You shall pay any such refund within ten (10) days after any such termination, or at our election, we may deduct the refund from any Commission we owe you. All signing bonus payments shall be final and binding upon you unless we receive written objection within sixty (60) days after the signing bonus has been paid to you. Customer acknowledges and understands that the signing bonus is a one-time payment, not a recurring or annual payment.

Bonus Prepaid Calling Cards. On the first day of the month following the installation of the System and annually thereafter during the Initial Term, we will provide you with prepaid calling cards with a total face value of \$1,000.00. Each prepaid calling card will be valid for no more than six (6) months from the date it is first used. Prepaid calling cards are not returnable or refundable; all sales are final.

NOW, THEREFORE, in consideration of the mutual promises and covenants contained herein, the parties agree as follows:

1. Term. This First Amendment shall commence on the First Amendment Effective Date and shall remain in effect through the Term of the Agreement.
2. Applications. The following Application is hereby added to the Agreement:

INMATE DEBIT

DESCRIPTION:

A Debit account is a prepaid, Inmate-owned account used to pay for inmate telephone calls. A Debit account is funded by transfer of inmate's facility trust/commissary account funds to Inmate's Debit account. Provider will also allow Inmate Friends and Family members to fund an inmate's Debit account via multiple points-of-sale. Funds deposited by Friends and Family members into an Inmate's Debit account become property of the inmate. Provider establishes Inmate Debit accounts which are associated with the inmate's Personal Identification Number ("PIN"). Provider requires inmate to key in his/her PIN at the beginning of every Debit call in order to complete the call and pay for the call using the inmate's Debit account. Customer agrees to have the Debit module of Provider's SCP Call Management System enabled for the Facilities to offer Debit account to inmates. Customer agrees to use Provider's SCP User Interface or utilize integration with Customer's trust account system to process inmate's fund transfer requests. Notwithstanding, Provider will not be responsible for any delays due to (i) Customer's failure to perform any of its obligations for the project; (ii) any of Customer's vendors' failure to perform any of its obligations for the project; or (iii) circumstances outside of Provider's control.

INVOICING AND COMPENSATION:

Provider shall invoice Customer on a weekly basis for all funding amounts transferred from inmates' facility trust/commissary accounts to Inmate Debit accounts. The invoice will be due and payable upon receipt. Provider shall pay Customer the commission percentage that Provider earns through the completion of Debit calls placed from Customer's Facilities as specified in the chart below. Provider reserves the right to deduct call credits from usage. Provider shall remit the commission for a calendar month to Customer on or before the 30th day after the end of the calendar month in which the Debit calls were made (the "Payment Date"). All commission payments shall be final and binding upon Customer unless Provider receives written objection within sixty (60) days after the Payment Date.
