

MCC Telephony, LLC
Revised Notification of *Pro Forma* Transfers of Control
International Section 214 Authorization

**REVISED DESCRIPTION OF TRANSACTIONS, SUPPLEMENTAL INFORMATION
AND REQUEST FOR WAIVER**

Pursuant to Section 63.24(f) of the rules,^{1/} the filers notify the Commission of *pro forma* transfers of control of the international Section 214 authorization held by MCC Telephony, LLC (the “Licensee”) due to (i) the conversion of Licensee from a corporation to a limited liability company on December 17, 2007, (ii) an increase in the equity interests of Mr. Rocco B. Commisso on March 4, 2011, (iii) the introduction of two intervening parent companies, one on May 10, 2011, and a second one on April 12, 2024,^{2/} and (iv) the introduction on December 5, 2025 of an intervening trust formed under Article I of the Rocco B. Commisso 2025 Revocable Trust Agreement (“Article I Trust”).^{3/} The Licensee did not previously file notifications of these *pro forma* transactions due to administrative oversight. All the foregoing transactions, however, were *pro forma* in nature because throughout the relevant period and until his death on January 16, 2026, Mr. Commisso ultimately controlled the Licensee. The public interest was served by this continuity of ultimate control through these transactions, and will be served by updating the Commission’s records regarding the Licensee’s ownership history.

Description of the Pro Forma Transfers of Control

When the Licensee obtained its international Section 214 authorization in 2005, it was a wholly-owned subsidiary of Mediacom Communications Corporation (“MCC”), and Mr. Commisso directly owned 24.3% of MCC and therefore held a 24.3% indirect interest in the Licensee.^{4/} Mr. Commisso was the largest ultimate holder of equity and voting interests in the Licensee, and the party with ultimate control over the Licensee. Below, the filers provide a description of each of the five *pro forma* transactions that took place after the Licensee obtained its international Section 214 authorization. The filers have submitted a transfer of control form in ICFS for each such transaction, and have attached this supplement to each form.

Pro Forma Transaction #1: On December 17, 2007, the Licensee converted from a Delaware corporation to a Delaware limited liability company.

^{1/} See 47 C.F.R. § 63.24(f).

^{2/} The Licensee’s affiliate, Mediacom Wireless LLC, previously provided notice to the Commission of the introduction of Mediacom Holdings LLC in the Mediacom corporate structure in 2024. See Mediacom Wireless LLC, Notification of *Pro Forma* Transfer of Control, ICFS File No. ITC-T/C-20240722-00119, Attachment at 1-2 (filed July 22, 2024) (“2024 *Pro Forma* Notice”).

^{3/} The Licensee’s ultimate parent company, JMCC, previously provided notice of this *pro forma* transfer of control in multiple filings made with the Commission regarding the involuntary transfer of control of various FCC licenses and authorizations held by the Licensee and/or its affiliates. See, e.g., MCC Telephony LLC, Notification of Involuntary Transfer of Control, ICFS File No. ITC-T/C-20260211-00040, Attachment at n.3 (filed Feb. 17, 2026).

^{4/} See MCC Telephony Inc. Application for Authority Under Section 214, ICFS File No. ITC-214-20050124-00025 (filed Jan. 20, 2005).

MCC Telephony, LLC
Revised Notification of *Pro Forma* Transfers of Control
International Section 214 Authorization

Pro Forma Transaction #2: On March 4, 2011, MCC completed a process of privatization, which resulted in Mr. Commisso's direct equity and voting interests in MCC increasing to 100%. Mr. Commisso, therefore, continued to be the largest ultimate holder of equity and voting interests in the Licensee, and the party with ultimate control over the Licensee.

Pro Forma Transaction #3: On May 10, 2011, JMCC Corporation ("JMCC") became the direct corporate parent of MCC, at which time Mr. Commisso directly held 100% of the equity and voting interests in JMCC, and JMCC directly owned 100% of MCC, which in turn, was the direct 100% parent of the Licensee. Again, Mr. Commisso continued to be the largest ultimate holder of equity and voting interests in the Licensee, and the party with ultimate control over the Licensee.

Pro Forma Transaction #4: On April 12, 2024, Mediacom Holdings LLC ("Mediacom Holdings") became the direct parent of the Licensee, at which time Mr. Commisso directly owned 79.55% of JMCC, JMCC directly owned 100% of MCC, and MCC directly owned 100% of Mediacom Holdings. Mr. Commisso therefore continued to be the largest ultimate holder of equity and voting interests in the Licensee, and the party with ultimate control over the Licensee.

Pro Forma Transaction #5: On December 5, 2025, Mr. Commisso transferred his 79.55% direct equity interest in JMCC to the Article I Trust, resulting in the introduction of this trust as an intervening entity in the Licensee's ultimate ownership and control. Mr. Commisso was the trustee of the Article I Trust, and, therefore, he continued to indirectly hold a 79.55% indirect equity interest in and ultimately control the Licensee. Thus, the December 5, 2025, insertion of the Article I Trust as an intervening entity was a *pro forma* transaction because the same person (Mr. Commisso) was the ultimate majority owner and controlling party before and after the transaction, and his indirect equity interest in the Licensee did not change as a result of the *pro forma* transaction.

Throughout the period of 2005 until his death, Mr. Commisso ultimately controlled the Licensee. On January 16, 2026, Mr. Commisso passed away.^{5/} JMCC has made the appropriate filings with the Commission to provide the required notices and seek the appropriate authority for the involuntary transfer of control resulting from Mr. Commisso's death, and this notice does not further address that event.

No Foreign Carrier Affiliation and Designation Countries

The filers (including the Licensee) have never been and are not currently affiliated with any foreign carriers, and they never had and do not have any interlocking directorates with any foreign carriers. Further, the filers (including Licensee) do not seek to provide international telecommunications services to any destination country for which any of the following is true for any of the filers or the Licensee: (i) the entity is a foreign carrier in that country, (ii) the entity

^{5/} See *Mediacom Communications Announces the Passing of Rocco B. Commisso*, MEDIACOM (Jan. 16, 2026), <https://mediacomcable.com/news/mediacom-communications-announces--the-passing-of-rocco-b--commisso.html>.

controls a foreign carrier in that country, (iii) any entity that owns more than 25 percent of the entity, or that controls the entity, controls a foreign carrier in that country, or (iv) two or more foreign carriers (or parties that control foreign carriers) own, in the aggregate, more than 25 percent of the entity and are parties to, or the beneficiaries of, a contractual relation (e.g., a joint venture or market alliance) affecting the provision or marketing of international basic telecommunications services in the United States.

Request for Waiver

The ownership interests disclosed above differ from the ownership information last reported by the Licensee in 2005.^{6/} At the time of that filing, the Licensee was a corporation, Mr. Commisso held a 24.3% indirect interest in the Licensee, and JMCC, Mediacom Holdings, and the Article I Trust did not exist. However, Mr. Commisso held the highest indirect ownership interest in the Licensee and had ultimate control over the Licensee throughout the relevant period. For example, JMCC, Mediacom Holdings, and the Article I Trust, which were introduced in the ownership chain after 2005, were ultimately majority owned and controlled by Mr. Commisso until his death. Accordingly, any changes in ownership or business entity form of the Licensee between 2005 and Mr. Commisso's death were *pro forma*. The filers request that the Commission recognize these transactions as *pro forma*, and revise the entity's name in the ICFS database associated with file number ITC-214-20050124-00025 to MCC Telephony, LLC.

To the extent necessary, the filers request a waiver of Section 63.24(f) of the Commission's rules, which would have required the Licensee to submit notices of the *pro forma* transactions within 30 days of their completion.^{7/} Section 1.3 of the Commission's rules permits the Commission to grant a waiver of its rules for good cause shown.^{8/} And the Commission has determined that it may waive its rules when doing so will not undermine the purpose of the rule.^{9/}

Good cause exists here to grant the request for waiver. *First*, the underlying purpose of the rule requiring notification within 30 days would not be undermined by grant of this request. To the contrary, granting the waiver would *further* the purpose of the rule. The Commission adopted the 30-day notification requirement to make requirements for *pro forma* transfers of international authorizations consistent with those for other services, particularly the Commercial Mobile Radio Service ("CMRS").^{10/} The Commission adopted the 30-day notification requirement for

CMRS providers to ensure that it has up-to-date records and that a clear public record of the changes that result from a *pro forma* transaction exists.^{11/} Granting the waiver and accepting this notification would do just that – it would ensure that the Commission has documentation of the Licensee’s ownership changes and that the public has the most up-to-date ownership information about the Licensee.

Second, grant of this request for waiver would be consistent with Commission precedent. The Commission has routinely granted requests for waivers of the 30-day notification requirement for *pro forma* transfers of control of wireless licenses due to administrative oversight.^{12/} And some of these transfers occurred more than a decade prior to the submission of the required notification.^{13/} The filers urge the Commission to likewise (i) grant a waiver of the 30-day notice

Previous Section 214 Authorization – § 63.18(d)

The Licensee possesses an international Section 214 authorization to provide global or limited global facilities-based and global or limited global resale services (ICFS File No. ITC-214-20050124-00025). It also holds a domestic Section 214 authorization because it offers interstate private line services to enterprise customers and schools/school districts, and other interstate wireline services.^{14/}
