Re: Notification of *Pro Forma* Transfer of Control

Dear Ms. Dortch:

EchoStar Corporation (“EchoStar”) submits this notification, *nunc pro tunc*, for a *pro forma* transfer of control resulting from a corporate reorganization. On March 12, 2026, Neyland Networks LLC, which controls licensee DISH Wireless L.L.C. (“DISH Wireless”),¹ was transferred from DISH Wireless Holdings L.L.C., a wholly owned subsidiary of EchoStar, to DISH DBS Corporation, another wholly owned subsidiary of EchoStar. To the extent necessary, the parties to the transfer seek a waiver of Section 1.948(c) and Section 63.24(f) of the Commission’s rules to permit this notification after the 30-day period for notifying the Commission of this *pro forma* transaction. This underlying transaction is in the public interest: it helped prepare EchoStar for the restructuring of some of its subsidiaries, better positioning EchoStar to better serve its millions of customers.

Please address any questions to the undersigned.

Respectfully submitted,

/s/ Pantelis Michalopoulos
