Transfer of Control

Grant of Authority

Date of Action: 08/03/2021

Current Licensee: Infosat Able Holdings, Inc.**FROM:** Telesat Canada**TO:** TELESAT CORPORATION

Application filed for consent to transfer control of Infosat Able Holdings, Inc. (Infosat), which holds international section 214 authorizations ITC-214-19990128-00050 and ITC-214-20000113-00025, from Telesat Canada to Telesat Corporation. Infosat is wholly owned by Telesat Canada, both Canadian companies. Following the transfer of control, Telesat Canada will become an indirect subsidiary of Telesat Corporation, a newly formed Canadian corporation that will be publicly traded on the Nasdaq.

Currently, the 10% or greater equity owners of Telesat Canada are: (i) Red Isle Private Investments Inc., a corporation organized under the Canada Business Corporations Act (Red Isle) (36%), and (ii) Loral Space & Communications Inc., a publicly traded Delaware corporation (Loral) (63%). Funds managed by MHR Fund Management LLC, a Delaware LLC (MHR Funds) own approximately 58% of the outstanding equity of Loral, and Loral stockholders not affiliated with the MHR Funds (Public Stockholders) own approximately 42% of the outstanding equity of Loral. Red Isle is a wholly owned subsidiary of the Public Sector Pension Investment Board (PSP), a Canadian crown corporation established to invest for the pension plans of the Public Service, the Canadian Forces and the Royal Canadian Mounted Police, and the Reserve Force Pension Plan.

Post consummation, Infosat will continue to be wholly owned by Telesat Canada. Telesat Canada will become an indirect subsidiary of Telesat Corporation, and Telesat Canada's direct owners will be Loral (63%) and Telesat Holdco (37%), both of which will be wholly owned subsidiaries of a new limited partnership (Telesat Partnership).

The 10% or greater owners of Telesat Corporation will be (i) PSP, through Red Isle, approximately 36.7% and (ii) the MHR Funds, approximately 36.6%. The remaining ownership interests in Telesat Corporation will be held by (i) the Public Stockholders, none of whom will have a 10 percent or greater interest and (ii) Telesat's management, which collectively will have a 0.7% interest.

Eight MHR limited partnerships and one MHR limited liability company (collectively, Direct MHR Holders) own equity interests in Telesat Corporation directly, with only one holding a 10 percent or greater interest: MHR Institutional Partners III LP, organized in Delaware, holding a 15.4% direct interest. MHR Institutional Advisors II LLC, organized in Delaware, (Institutional Advisors II) (10.7%), MHR Institutional Advisors III LLC, organized in Delaware, (Institutional Advisors III) (15.4%) and MHR Fund Management LLC, organized in Delaware, (Fund Management) (36.6%) each hold indirect interests in Telesat Corporation through the Direct MHR Holders. MHRC II LLC, organized in Delaware, (MHRC II) is the managing member of Institutional Advisors II. MHR Holdings LLC, organized in Delaware, (MHR Holdings) is the managing member of Fund Management. Dr. Mark Rachesky, a U.S. citizen, is the managing member of five MHR limited liability companies, including Institutional Advisors III, MHRC II and MHR Holdings, and thus holds a 36.6% indirect interest in Telesat Corporation. All of the MHR entities are organized in Delaware.

In some cases, in lieu of holding equity directly in Telesat Corporation, shareholders will hold their equity in Telesat Partnership. Telesat Corporation will be the controlling general partner of Telesat Partnership. The limited partnership units of Telesat Partnership, which will be exchangeable for equity in Telesat Corporation, will otherwise have substantially identical economic and voting rights as the shares of Telesat Corporation. Units in Telesat Partnership, however, will be subject to substantial limitations on transfer and will not be publicly traded, such that it is expected that units in the Telesat Partnership will generally be exchanged for shares in Telesat Corporation prior to transfer.

The Telesat Corporation board will be comprised of 10 directors. Three directors will be nominated by PSP. Three directors will be nominated by MHR. Three directors will be independent directors nominated by a nominating committee consisting of one PSP nominee, one MHR nominee, and three independent directors. The tenth director will be Telesat Corporation's CEO, who will be selected by the other directors.

A "golden share" will ensure Telesat Corporation is Canadian controlled. The golden share will be held by TSX Trust Company (TSX), a trust to be organized under the laws of Canada and managed by a Canadian trustee. No economic rights in Telesat Corporation will be associated with the golden share. TSX will vote a sufficient number of shares of Telesat Corporation to ensure that more than 50% of the votes are cast by Canadian interests. Since at closing PSP, which is Canadian, will have an approximately 36.7% voting interest through Red Isle for shareholder matters and a voting interest of approximately 30% for selection of directors, the maximum possible golden share vote at closing would be approximately 13.3% plus one share on shareholder matters and approximately 20% plus one share on selection of directors.

We grant the Petition to Adopt Conditions to Authorizations and Licenses filed in this proceeding on August 3, 2021, by the National Telecommunications and Information Administration on behalf of the Committee for the Assessment of Foreign Participation in the United States Telecommunications Services Sector. Accordingly, we condition grant of the application on compliance by Infosat Able Holdings, Inc. and Telesat Corporation with the commitments and undertakings set forth in the Letter of Agreement from Chris DiFrancesco, Secretary, Infosat Able Holdings, Inc. and VP, Telesat Corporation, to the Chief, Foreign Investment Review Section, Deputy Chief, Compliance and Enforcement, on behalf of the Assistant Attorney General for National Security, United States Department of Justice, National Security Division, dated July 15, 2021 (LOA). A failure to comply and/or remain in compliance with any of these commitments and undertakings shall constitute a failure to meet a condition of this grant of transfer of control and the underlying international section 214 authorization and thus grounds for declaring the underlying international section 214 authorization terminated without further action on the part of the Commission. Failure to meet a condition of the authorization may also result in monetary sanctions or other enforcement action by the Commission. The Petition and the LOA may be viewed on the FCC's website through the International Bureau Filing System by searching for ITC-T/C-20201215-00208 and accessing the "Other Filings related to this application" from the Document Viewing Area.

This authorization is without prejudice to the Commission's action in any other related pending proceedings.
