Subject: ITU Membership

Dear Mr. Engelman:

As you are aware, the United States through the Compact of Free Association administers communication matters for the Republic of Palau. Palau continues to depend on the assistance, direction, and services of the Federal Communication Commission (FCC) in the administration of its relationship with the International Frequency Registration Board of the International Telecommunication Union (ITU). As a young and aspiring nation there are emerging small businesses namely, SkyFye who aspires to participate in the International Telecommunication Union (ITU), to expand their services and knowledge through the participation and membership of ITU. Membership at ITU means participation in the knowledge of technical advancement beneficial to our local businesses.

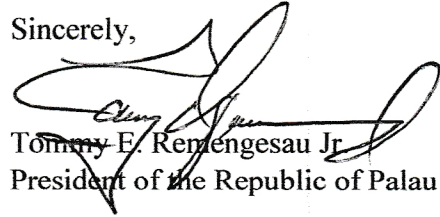

Taking into account FCC's administrative responsibilities I am therefore requesting your office to support and recognize the application of SKYFYE to become a member of the International Telecommunication Union (ITU). Attached herewith is Skyfye application to ITU and its Earth Station Licenses issued by the Ministry of Public, Infrastructure, Industries, and Commerce for your application.
