Re: Mobile Communications Holdings, Inc., Big LEO license, Call Sign S2111

Dear Mr. Baruch:

In email sent on September 29, 2003, you informed me that MCHI had not filed an appeal of the Commission's decision upholding the International Bureau's ruling that MCHI's Big LEO license is null and void for failure to meet a milestone condition (FCC 03-122, released June 4, 2003). You also said in the email message that MCHI wanted us to return relevant confidential documents and requested that they be sent to you. I am returning the confidential MCHI documents that were in my custody. I believe that these are the only copies that were kept in the International Bureau, but if I discover any others I will also send them to you.

Sincerely,

A handwritten signature in black ink, appearing to read "W. H. Bell", written over a horizontal line.
