Re: PanAmSat Licensee Corp.
File No. 57-SAT-P/LA-96
108-SAT-AMEND-96
21-SAT-AMEND-98
Re-submission of amendment to pending application

Dear Sir or Madam:

On behalf of PanAmSat Licensee Corp. ("PanAmSat"), we hereby resubmit a minor amendment ("Amendment") to the above-captioned application.

PanAmSat originally filed the Amendment on January 13, 1999. A recent review of PanAmSat's records, however, revealed that the filing fee check for the Amendment, in the amount of \$1,280 and dated December 28, 1998, never cleared.

We then discussed this matter with the FCC staff, and were told that the Amendment had been returned because it had been filed without "Schedule B" (we did not receive a returned Amendment). It is unclear why the Amendment would have been returned on this basis, given that Schedule B concerns earth station information and the Amendment is to a space station application.

We are attaching to this filing copies of materials evidencing the fact that we originally had filed the Amendment earlier this year. Attachment A is a copy of the FCC Form 159 filed initially with the Amendment, bearing a January 13, 1999 FCC/Mellon date-stamp. Attachment B is a copy of the December 28, 1998 check that was submitted with the Amendment.

Questions with respect to this matter should be directed to the undersigned.

Respectfully submitted,

Joseph A. Godles
Attorney for PanAmSat Licensee Corp.

AMENDMENT

PanAmSat Licensee Corp. ("PanAmSat") hereby amends its above-captioned application in order to conform the application to the satellite as built. This amendment will not increase the potential for interference, add new frequencies, or convert the proposal into an action that may have a significant environmental impact and, therefore, it constitutes a minor amendment under Section 25.116 of the Commission's rules, 47 C.F.R. § 25.116.

Discussion

On September 15, 1998, in connection with a request for special temporary authority to launch and operate the PAS-21 spacecraft, PanAmSat advised the Commission of certain minor differences between the Ku-band frequency plan as shown in the PAS-21 application and the Ku-band frequency plan of the satellite as actually constructed. PanAmSat hereby amends the application to conform the application to the satellite as built.

There are no additions to the frequency bands that the satellite will use, but in one case less of a band will be used than was originally proposed, and in another case a frequency band will no longer be used on two of the beams of the satellite. Specifically: (1) the uplink for the South Africa beam that was previously identified as operating in the 14.0-14.5 GHz band will use only the 14.0-14.25 GHz portion of the band; and (2) the 11.45-11.7 GHz band will no longer be used for the India beam or the China beam.

Because this amendment does not involve the use of any new frequency bands, increases in power, or other technical changes that might increase the potential for interference, no new engineering materials are being submitted herewith. In addition,

the nature of the amendment is such that it does not constitute a major amendment under Section 25.116 of the Commission's rules, 47 C.F.R. § 25.116.

Questions with respect to this matter should be directed to the undersigned.

Respectfully submitted,

PANAMSAT LICENSEE CORP.

WILLFUL FALSE STATEMENTS MADE ON THIS FORM ARE PUNISHABLE BY FINE AND/OR IMPRISONMENT (U.S. Code, Title 18, Section 1001), AND/OR REVOCATION OF ANY STATION AUTHORIZATION (U.S. Code, Title 47, Section 312(a)(1)), AND/OR FORFEITURE (U.S. Code, Title 47, Section 503).

EXHIBIT A

FCC Form 312, Item 37

PanAmSat Licensee Corp. is a wholly-owned subsidiary of PanAmSat Corporation ("PanAmSat"). Hughes Electronics Corporation ("HE") indirectly owns over 80% of the issued and outstanding stock of PanAmSat. HE Holdings, Inc. ("HEH"), a wholly-owned subsidiary of HE formerly known as Hughes Aircraft Company, pled guilty to two felony counts in 1990. The full details of this matter are included in a Form 430 for Hughes Communications Galaxy, Inc., dated August 19, 1991.

On June 15, 1992, HEH was found guilty of one felony count with regard to the testing of microelectronics components. The full details of this matter are included in a Form 430 for Hughes Communications Galaxy, Inc., dated August 12, 1992.

As the Commission implicitly has found in granting numerous PanAmSat space station and earth station applications in the past, the conduct at issue in these two cases has no relevance to the FCC authorizations and applications of PanAmSat. HE had no ownership interest in the PanAmSat system when the conduct occurred at HEH. Moreover, conduct in these matters is wholly unrelated to the communications area and does not reflect in any way upon the FCC-related activity of PanAmSat or PanAmSat Licensee Corp., whose operations are largely independent of HEH.
