File No. SES-MOD-20031118-01879 (ATC application)

Dear Ms. Dortch:

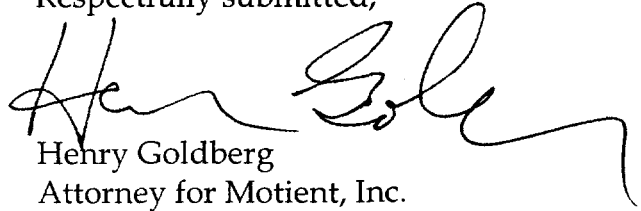

This is to inform you that, on June 29, 2004, in connection with the above-referenced applications, the undersigned, representing Motient, Inc., an investor in Mobile Satellite Ventures LP ("MSV"), and Alex Good, CEO of MSV, Carson Agnew, President and COO of MSV, and Peter Karabinis, VP and CTO of MSV met with Donald Abelson, Chief of the International Bureau, and the International Bureau staff members shown below as receiving copies of this letter.

During the meeting, the MSV representatives discussed key issues included in the above-referenced applications and their expeditious resolution. The discussion included the uplink standard of 6% $\Delta T/T$, the overhead gain suppression value, the vocoder issue, the downlink power value, the key telecommunications standards that might be incorporated into MSV's ATC system, and the rationale for having an in-orbit

spare. These subjects have been covered in the above-referenced applications and the parties' pleadings and filings regarding those applications.

Please direct any questions regarding this matter to the undersigned.

Respectfully submitted,

Henry Goldberg
Attorney for Motient, Inc.
