Re: contactMEO Communications, LLC;
Call Sign S2346;
File Nos. SAT-LOA-19991222-00222 and
SAT-AMD-20040322-00057

Dear Ms. Dortch:

On June 16, 2004, the International Bureau reinstated the above-referenced applications filed by contactMEO Communications, LLC ("contactMEO") and stated that the applications would appear on Public Notice once contactMEO had submitted certain additional information.¹ One of contactMEO's proposed satellites would operate in geostationary orbit at 121° W.L.

In the applications, contactMEO seeks, among other things, a waiver of Section 25.202(g) of the Commission's Rules that would permit it to operate its transfer-orbit and emergency-mode on-orbit TT&C links on 4/6 GHz (C-band) FSS frequencies.

¹ Letter of Thomas S. Tycz, Chief, Satellite Division to David M. Drucker, Manager, contactMEO Communications, LLC; DA 04-1772 (rel. June 16, 2004).

Federal Communications Commission

Page 2

PanAmSat Licensee Corp. ("PanAmSat"), which is the licensee of a C-band satellite at 123° W.L. that is adjacent to contactMEO's proposed satellite at 121° W.L., asks that contactMEO be required to coordinate any proposed use of its C-band payload with PanAmSat in advance of any such operations.

Questions with regard to this matter can be directed to the undersigned counsel to PanAmSat.

Respectfully submitted,

Joseph A. Godles
Attorney for
PanAmSat Licensee Corp.

cc: David M. Drucker, contactMEO
