Re: 115 License Subsidiary, LLC
Call Sign 2700
Request for Prompt Action on Milestone Compliance Determination

Dear Mr. Nelson:

115 License Subsidiary, LLC (the “Company”), by its counsel, hereby requests that the International Bureau (“Bureau”) take prompt action in reviewing the Company’s compliance with its requirement to execute a binding, non-contingent satellite construction contract for a 17/24 GHz Broadcasting-Satellite Service satellite at the 115°W.L. orbital location. The Company provided a complete copy of its satellite construction contract to the Bureau in December 2009, nearly six months ago. Approximately two months ago, the Company submitted a letter from the satellite manufacturer, Space Systems/Loral, Inc., providing additional evidence that the Company timely met its initial milestone requirement. However, the Bureau still has not taken any action. The Company urges the Bureau to remedy this administrative delay. Prompt Bureau action concluding that the Company has met its initial satellite milestone requirement will eliminate regulatory uncertainty, reduce unnecessary costs to the Company, and free up capital for business operations.

Please direct any questions regarding this matter to the undersigned.
