Call Sign: S2134
May 19, 2008

SES Americom, Inc.'s (SES AMERICOM) application, File No. SAT-MOD-20080124-00030, as amended by SAT-AMD-20080311-00070, for modification of its Fixed Satellite Service (FSS) C-, Ku-band space station authorization for the AMC-2 satellite (Call Sign: S2134),¹ IS GRANTED. Accordingly, SES Americom IS AUTHORIZED to operate AMC-2 at the 100.95° W.L. orbital location in the 3700-4200 MHz (space-to-Earth), 5925-6425 MHz (Earth-to-space), 11.7-12.2 GHz (space-to-Earth), and 14.0-14.5 GHz (Earth-to-space) bands, in accordance with the specifications in the application and the previously established terms, conditions, and specifications for operation of AMC-2, except as modified herein, and in compliance with the Federal Communication Commission's rules, except insofar as waived herein.

1. SES Americom's request for partial waiver of Section 25.210(j), of the Commission's rules, 47 C.F.R. § 25.210(j), IS GRANTED as conditioned. Section 25.210(j) states that space stations "must be maintained within 0.05° of their assigned orbital longitude in the east/west direction, unless specifically authorized by the Commission to operate with a different longitudinal tolerance." SES Americom states that allowing AMC-2 to operate with an east-west station-keeping range of 0.15 degrees within a combined station-keeping volume with AMC-4 will not harm other operators. SES indicates that it will closely control the two satellites' flight to ensure their safe joint operation. We agree with SES Americom that increasing the station-keeping volume of the AMC-2 spacecraft will not adversely affect the operations of other spacecraft, will conserve fuel for future operations, and will facilitate coordinated operation of AMC-2 and AMC-4 in the same station-keeping range. Accordingly, SES AMERICOM is authorized to operate the AMC-2 satellite within an east-west station-keeping range of 0.15 degrees of longitude between 100.90° W.L. and 101.05° W.L. orbital location. This authority is limited to this spacecraft and does not extend to any replacement satellites. Further this authority for greater than .05 east-west station-keeping will continue only while AMC-4 (Call Sign: S2135) operates within the same longitudinal range.² Our action here is consistent with our precedent.³

¹ The modification was placed on public notice. Public Notice Report No. SAT-00503, Satellite Space Applications Accepted for Filing (Feb. 15, 2008), and Public Notice Report No. SAT-00512, Satellite Applications Accepted for Filing (Apr. 4, 2008). On February 13, 2008, Mobile Satellite Ventures L.P. (MSV) filed a letter expressing concern regarding station-keeping coordination. Subsequently, the operators resolved the concerns expressed and filed modifications and amendments to implement their agreements. See IBFS File Nos. SAT-MOD-20080303-00055, SAT-MOD-20080118-00028, and SAT-AMD-20080310-00061 (modifications for MSV's AMSC and MSV-1 space stations).

² File No. SAT-MOD-20080314-00072 granting authority for operation of the AMC-4 space station in a station-keeping range between 100.9° W.L. and 101.05° W.L.

³ SES Americom, Inc. Application for Modification of Satcom SN-4 Fixed Satellite Space Station License, *Order and Authorization*, 20 FCC Rcd 11542, 11545 (Sat. Div. 2005).

2. This action is taken pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 C.F.R. § 0.261, and is effective immediately. Petitions for reconsideration under Section 1.106 or applications for review under Section 1.115 of the Commission's rules, 47 C.F.R. §§ 1.106 and 1.115, may be filed within 30 days of the date of the public notice announcing this action.
