**Re: Administrative Update to Amendment Application of ViaSat, Inc.;
IB File No. SAT-AMD-20081203-00220, Call Sign S2737**

Dear Ms. Dortch:

On December 3, 2008, ViaSat, Inc. ("ViaSat") filed an amendment to the modification request pending in connection with ViaSat's license to launch and operate the VIASAT-KA1 satellite at the 77.3° W.L. orbital location. See File Nos. SAT-AMD-20081203-00220; SAT-MOD-2008071800144. As part of the amendment, ViaSat provided the required GXT files via CD-ROM because the electronic Form 312 Schedule S is unable to support the large number of GXT files that would need to be uploaded. In response to a request by International Bureau staff, ViaSat hereby submits a CD-ROM containing six GXT files with certain formatting corrections. These six files should replace the previously submitted files having the same name. All other GXT files submitted with the amendment remain unchanged.

In response to an inquiry by the International Bureau staff, ViaSat confirms that the service area of the modified VIASAT-1 satellite is North America, as specified in the Schedule S filed in the above-referenced amendment.

Please contact the undersigned if you have any questions regarding this submission.

Respectfully submitted,

Elizabeth R. Park
